What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Orono, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the true interest of their children, and use Castoria instead of the various castor nutra which are destroying their lives, even by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchener, Conway, Ark.

The Centaur Company, 77 Murray Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

Dr. A. Archer, M. D., 113 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

ALLEN C. SMITH, Pres.,

Such a flurry, such a flurry, Such a hurry in the city, Such a whirling and a stirring, Little as break as bees; Nois as building, 'tis important, If you please!

Such a tripping, such a skipping, Such a slipping over the stones; Such a flashing and a dashing, Such a merrily of one, Books are hasting to the ocean, Where it moans.

Such learning, so much earning, So much trading, so much toiling, So much telling, so much spelling, Till the dizzy heads round; Patience, child, 'tis knowledge found, 'Tis a knowledge found.

TOMATO CULTURE.

There are probably more tomatoes used, and served in a greater number of ways than any other vegetable, besides its taking the place of the fruit when served in its raw state. The tomato is a good feeder, feeding its roots deep down for food. The best way to grow tomatoes is to throw out the soil to the depth of two feet, with equal diameter. Put six inches of well rotted manure at the bottom and fill the hole with the material thrown out, made rich. Where there is sufficient ground the hills should be eight feet apart. Plants treated in this way will yield far more fruit than if planted close.

The plants when so frequently sold in the market, and set in the usual way, will not produce as much fruit, or as quickly as would the plants from seed when they are to grow. Tall leggy plants can be planted to advantage by inserting the plant a little distance from the center of the hill, and then, by bending the plant down and covering it with earth to the depth of an inch, leaving the top out more than two inches. The plant will immediately commence throwing out roots thickly the whole length of the buried stem, and make a strong and rapid growing plant. The same plan, in the usual manner, seems to grow smaller instead of larger, for some days or weeks. If the plant has plenty of room to grow, it does best when trailing upon the ground, the influence of the warm earth being very beneficial upon the ripening of the fruit. But in wet seasons, the plant is quite liable to rot if lying on wet ground. In average seasons the chances are in favor of the plant in the usual manner.

The first-class roots is now so great that in selection of varieties, one must be guided by individual preference. A medium sized plant, with a bushy habit, and a few large ripening evenly clear to the stem, without a hard center, and with a little seed as possible, is the nearest approach to perfection. Yet under different conditions the same seed produces very different results. For a late crop it is advisable to sow some seed where the plants are to grow, about the first of June, or at about the middle of the month. The plants will come into bearing when the early set plants begin to fail. The cutting off of the first fruits that set is strongly to be recommended, as the plant at that time has not sufficient strength for their development.

MILKING TIME.

A few suggestions in regard to summer management may not be out of place at this time.

It is a good thing to enforce the rule of perfect quiet; no loud talking or any disturbing noise. Keep the cows in the best of health. It will help greatly in this respect to let the cows remain outside ten or fifteen minutes after they come to the yard. Always keep regularity in the hours of milking. Consider the cows and all that pertain to them a part of the regular business of the day, to be done inside of the working hours. The cows should be milked at the same time, and in the same place, and by the same person. The milk should be kept in the stable every time. Always charge the milk with care, and make their pay in milk. Each milker should milk the same cows every time. Make a rigid rule that the cows shall have their feed at the same time, and in the same place. If the cows are in the summer will not furnish it provide in some other way. Never delude yourself with the idea that you can make a cent by withholding food from the cows. This fully prevails very widely. Indeed we may say a majority of the dairymen in the United States and Canada will not provide a liberal supply of feed for their cows, but the cows come in July and August. The profit from milk is low at that time, but the cows need to be kept in the best of health to be of any use to the farmer. A real square cow farmer, one who understands cows, will see to it always that his cows have the best feed money can buy. He will see to it that the feed is given to the cows when they are giving milk. He must do this in order to get the best profit out of them the whole year around.

Rebecca Wilkinson, of Brownsville, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia and Indigestion until my health was gone. I bought one bottle of South American Kidney and Liver Cure, and in one week I was able to do more than I had done for years. I would advise every weakly person to use this valuable and lovely remedy." A trial will convince you. Sold by W. G. Eggar, 3152

Novo Scotia legislature was prorogued Friday. During the session 380 bills were introduced.

TRUSTS AND COMBINATIONS

Are unpopular. But there is one form of trust against which no one has anything to say. That is the trust in the power of the people in Hood's Sarsaparilla, and the best of it is the trust is fully justified by the merit of the medicine. Remember, HOOD'S Sarsaparilla CURES.

Hood's Pills are purely vegetable, and do not produce pain or gripes. Sold by all druggists.

KESEY—Why would you believe a minister's word sooner than any other man's? Why do you believe him? He is supposed to preach the truth and tell the truth? But why do you ask the question? Well, because the Rev. A. L. Seider, pastor of the Methodist church at Leamington, says: "I have been cured of a most painful and distressing case of piles of long standing by KESEY'S Ointment, and recommend it to all afflicted."

The dead body of a man found in a freight car of the New York Central R.R. at Albany Sunday morning is believed to be that of J. B. Stewart, a commercial traveler well known in Toronto, whose home is near Brampton, Ont.

A RALEIGH MAN'S REMARKABLE STORY.

FIFTY-SEVEN YEARS SUFFERING WITH PILES.

CURED BY MAGIC PILE LOTION.

The Banner reporter having learned from Messrs. Pilkey & Co., druggists, of Chatham, of a remedy for piles of a kind of which he had never heard, he was induced by seeing upon the subject, Mr. Robert Gilchrist, who lives on the south half of lot 8, in the 14th concession of the Township of Eglar, in the County of Kent. I found the old gentleman, notwithstanding his 78 years, gently engaged in his daily work. He never seemed to suffer from his ailment, but the person who had bought a bottle of Magic Pile Lotion from Messrs. Pilkey & Co., of Chatham, and been cured of piles of over 40 years standing, he replied, that he would waive any objection to tell me about it for publication. I said: "No, not the slightest objection, for if I can do any one any good while I live I am quite willing to do so." Concluding, he said: "I was first attacked by piles, fifty-seven years ago, and I have had them more or less every year since. I have suffered excruciating pain. They have been of the hemorrhoidal kind, and I did not believe it. I think itching, bleeding and blood piles are the only different kinds of piles. I have tried all the remedies I could get, but I have never been cured. I have worked in the fields with my legs and feet soaking in blood from them. I have at different times while away from home had to lie down on the road or in the fields for hours the pain has been so great from them, and only with the slightest relief, for if I can do any one any good while I live I am quite willing to do so." Concluding, he said: "I was first attacked by piles, fifty-seven years ago, and I have had them more or less every year since. I have suffered excruciating pain. They have been of the hemorrhoidal kind, and I did not believe it. I think itching, bleeding and blood piles are the only different kinds of piles. I have tried all the remedies I could get, but I have never been cured. I have worked in the fields with my legs and feet soaking in blood from them. I have at different times while away from home had to lie down on the road or in the fields for hours the pain has been so great from them, and only with the slightest relief, for if I can do any one any good while I live I am quite willing to do so."

The unbounded productiveness of these virtually waste lands is proved by actual results. Australia can grow meat, butter, cheese, wine, fruit, and wheat on a very small scale, from a few better factories in Victoria, for example, a single steamer has recently taken away \$35,000 worth of chilled butter, and shipments of fresh mutton, beef, and other products for three months each season, although it is only within two years past that the export trade in this article was commenced. Victoria's wool industry has been pronounced by the British medical journals to be equal in quality to the best of the world. The results already achieved by Australia show that she has unlimited possibilities for wine-making. The fruit trade also has an incalculable future, grapes, apricots, peaches, oranges, lemons, pears, apples, plums, pineapples and almost every other known variety capable of soil transport flourishing in the sunniest parts of the country, or Spain, or Italy.

Then, even the already important pastoral industry is capable of expansion. For immense areas of country are still unstocked, and in the wool-growing districts a system of small farming, with the use of machinery, is being introduced. The attention of the agriculturist, would greatly increase the productiveness of the sheep runs. The fattening of sheep and cattle on the extensive pastures, and the raising of the best of the wool, are enterprises as yet merely in its infancy. The primeval forests in many regions are rich in valuable timber, and a hundred acres of unbroken by the ring of the woodman's axe. Instead of the 3,000 camels now in use in the arid regions of Central Australia, a hundred or a thousand of that number, opening up pastoral country as yet incapable of occupation through the impossibility of getting up the supplies of food and clothing, would be to be worked where men cannot now subsist for scarcity of water.

Only a pinch of the mineral wealth in the bowels of the earth has yet been extracted. The coal fields, the iron, the tin mine in the world, Mount Bischoff, in New South Wales, the silver mine in the north, the copper mine in Queensland, the biggest gold mine in the world, Mount Morgan; in South Australia one of the biggest copper mines, Mount Isaacs, and many others, are the most extensive coal measures anywhere to be found. But, though hundreds of millions of pounds sterling worth of minerals are lying in wait, Australia, it is certain that thousands of millions remain to be won.

WASHINGTON THE FACT.

Some complexion specialists say the face should never be washed. At least one woman in New York affirms that the face was never washed in seven years.

When a woman is washed, her face is soiled again, she says: "Ah, you should have seen my grandmother's skin. When she was seventy, it was like a rose leaf. I had not washed her face for twenty-six years."

Similar stories are told of Madame Tatti and other women of remarkably fine complexion, but the truth of these is not vouched for by reliable authorities.

On the other hand, it is a woman living in New York who makes a practice of washing her face every night with soap and hot water. She is over fifty years old, her skin is as smooth as the skin of a child, and she is as healthy as a young girl. A friend of hers, who is of about the same age, and has a complexion rivalling that of a child, only older, says: "My mother, who has not touched it with soap in forty-two years."

The weight of evidence with the people who use soap, but all agree in saying that only the finest, purest soap may be employed, and that every particle of it must be rinsed off. Authorities on the matter say that the face should not be washed often, but once a day, and that the water should never be dashed over it, as is the delight of the reprehensible practice of most men and some women. Very little water should be used, and it should be applied with a soft cloth, a fine hair sponge, or one of the high-priced facial sponges.

A REMEDY.

Prepared specially for the expected invasion of Asiatic Cholera. After having been thoroughly tested and its virtue and power proved in now and then in the hands of the druggists. Ask for "Asiatic Cholera Syrup."

In Chatham Monday Mr. Pettit's grocery store was robbed of over \$35. A man went in, sent the boy to get a box of soap, a barrel, and cooly helped himself to the cash.

No other Sarsaparilla can produce from actual cases such wonderful statements of relief to human suffering as HOOD'S Sarsaparilla.

At the Oxford county assizes Timothy Carroll was sentenced to ten years.

John W. Smith, a man who was in the hands of the law, was sentenced to two months in gaol.

The supreme chief ranger has appointed Sunday, June 15th, to be observed as a day of general thanksgiving by the Independent Order of Foresters for the past year's blessings. During the month of March there were 1,925 new members enrolled in the order, being second to the largest number ever received in any one month.

The streets Committee have had St. George, Edmund, Main and Center streets thoroughly scraped and all mud removed. This is one of the best jobs which has been done on the streets for several years. More gravel is sorely needed on all the streets of the town. Limestone should not be placed on the streets; engineers are refusing its use elsewhere.

The Canadian Mule of this week is an excellent number. It contains a large number of interesting articles and has an illustrated supplement giving a history of the Institution for the Deaf & Dumb.

This interesting journal is one of our most welcome exchanges and are glad to see that it is constantly improving under the editorial supervision of Prof. J. B. Ashley.

Over 80,000 persons die prematurely in Great Britain every year by the indirect influence of intemperance. From disease, accident, violence or disease, and 40,000 are killed annually by the direct influence of intemperance. No person on this side of the Atlantic, who has not visited England, can form any idea of the awfully debasing effects of the liquor traffic as evidenced in Liverpool, London and other great centres of population.

The Oswego Daily Times, of April 27th, thus refers to the death of a former resident of Deseronto: "The death of Mrs. Margaret Rose Remond from the community an earnest christian woman. Suffering from a long illness, she died of an incurable disease, she illustrated the graces of fortitude and patience, and impressed upon all around her the power of our holy religion. Honest, true and faithful to the end, she has gone to the reward which God promises to His loyal children, leaving behind her the precious heritage of a mother's love."

The deceased, whose maiden name was MacCubbin, was much respected friends here will learn of her death with great regret.

The West End Mission people are delighted with the new stove. J. A. Sinclair delivered an excellent address at the evening service last Sunday.

Mr. Commissioner Marrigan is attempting a good job by metalling the Boundary road. This work will be appreciated by those who remember the slough they had to wade through a year or two ago to reach our town.

The Presbyterian church and residences on North St. George street were in darkness on Wednesday night, water was usual collecting in the pipes at the corner of Dundas street. Gas officials are becoming unpopular in that part of the town.

The boardwalk in front of Central Park has been covered with auge worms during the past few days. Many of them are of an uncommonly large size. It is supposed they have been flooded out of their usual haunts by the heavy rains.

Mr. George J. Carter was in Trenton on Sunday and attended the church parade. The Oddfellows lodge of that town of which he is a member. Large delegations were present from Belleville, Deseronto, and other places. Visiting brethren were very hospitably entertained by the local lodge.

The woods are now full of wild flowers which are eagerly sought for by fair maidens. The sweet and low notes of the thrush musical notes enable the dwellers in the suburbs to realize the "sober certainty of waking birds." This is merely a poetical way of stating that spring is with us once more.

Edward Holmes, an English newspaper man, set out on Tuesday on a long pedestrian trip. He intends to walk from Ontario to the Atlantic Ocean, a distance of 3,000 P. R., and hopes to complete the trip in five months. His object in making the trip is adventure, and at the same time he will write up his country.

The review of battle ships at New York Thursday of last week was a brilliant affair. The British squadron, led by the flagship Blake, carried off the honors of the day. The Blake is named after Robert Blake, the famous admiral who fought for the Commonwealth under Cromwell against the Royalists, and subsequently beat the Dutch in a series of brilliant engagements.

Deseronto Car Works. A fine auxiliary car was recently completed for the Lake Erie and Detroit River Railway. Four passenger coaches were also completed. The cars are being hurried to completion, as they have to be finished at a very early date.

Hallo Northport. The North American Telegraph Company stretching its telephone wires from Deseronto to the thriving village of Northport. The poles are already on the ground and Capt. Hampton expects to have the work finished in a few days.

Public School. The public school building being over-crowded another department has been opened by the board. Miss Robertson and the pupils of her department have been moved to the town hall until the summer vacation. A new primary department has been formed with Miss Yarwood, of Belleville, as teacher.

Sash and Door Factory. The Rathbun Company's sash and door factory is very busy, orders being large. An order for 5,000 doors was received one day last week from England and shipments are frequently made to Africa, Australia, etc. Three car loads of doors, sash, blind, and the complete sash shop furnishing of a house were shipped the other day to St. John's, Newfoundland. Orders have also been received lately from Prince Edward Island.

Heavy Traffic. Vast quantities of lumber, ties, posts, pulp wood, long cedar, etc., continue to come into Deseronto from different points in the Midland division of the Grand Trunk, the C. P. R., K. & P., and S. of Q. Railways. Much of this is immediately transferred to the State's ports. On Tuesday the yards were fairly congested, as many as 185 loaded cars being on the different tracks, a column of traffic not seen outside the larger cities of Ontario.

License Commissioners. Messrs. Anderson, Phillips and Way, license commissioners, were in town Tuesday and Wednesday, issuing licenses to applicants. Inspector Lilly on account of illness, was unable to be present. No changes were made in Deseronto or Iyendinago, the commissioners deciding that it would not be in the public interest to grant a third license in Shannonville. It is the intention of the board to insist upon a rigid observance of the regulations of the license act in all parts of the riding.

Subsidiary. Deseronto is the most progressive town in Eastern Ontario, but some relics of superstition still linger. Among others we may mention the regulation about keeping street lamps lit on the day of the full moon when the moon is supposed to be shining overcast. In cloudy wet weather the rays of the orb of night fail to connect the dark and dreary streets with the sunlit walks and street crossings invisible to the beleaguered pedestrian. The town fathers should sit up late and consider the lamps lit every night that they are required, regardless of the phases of the moon.

The Star Bakery has been moved to the shop recently vacated by Mr. John Hartgrover, immediately north of the Callaghan house. Mr. George Hart, Mr. E. C. Hart, the proprietor, is fitting out the premises in first class style with the intention of making the bakery one which will be thoroughly equipped in every particular. He has introduced one of Hubbard's portable ovens, a recent invention, the manufacturers from Toronto having offered a double price to put it into position. This is a great improvement on the old system and will enable him to bake at any hour of the day or night. Mr. Hart is well known as a skilled baker and relies on public patronage to repay him for his new venture. He will keep constantly on hand bread, roll, pie, cakes, confectionery, etc., etc. Wedding cakes furnished at short notice. Parties supplied at very reasonable rates.

LOCAL ITEMS.

The new coal storage building and dock had been built.

Eighty years ago next Monday since York (Toronto) was vacated by the United States troops.

Mr. C. W. Tucker is a handy man to have about the house. He is busy in spare time erecting a tasty fence around his house and lot on Maple avenue.

A new paint shop has been erected in connection with the ash and door factory. Mr. Graham and staff will now have more elbow room while glazing ash and wielding the magic brush.

The harbor has presented a very busy aspect during the past two weeks. Large fleets of steamers and sailing crafts have been loading with lumber for United States and home ports.

The Big Store received a new delivery wagon of a most elegant and convenient pattern. Mr. Carroll is very proud of the new vehicle which is worthy of the Big mercantile establishment.

In another column will be found the advertisement of Wims & Co. They advertise some big bargains. They intend going out of ready-made clothing altogether so that those needing clothes should call and see the wonderful bargains they are offering for cash.

Universal suffrage has at last been granted in Belgium, having been taken from the parliament by a threatened revolution. The king, with great good sense, favored the demand of the workmen. A republic would by this time have been declared had not the parliament yielded.

This is Arbor Day in Ontario. Judging from the appearance of many school grounds it is feared that it is not so generally observed as is desired. The close of the day should find all school grounds free from unsightly litter and, at least, a few trees and flowers added for their decoration.

The streets commissioner has been laying down new sections of boardwalk. The section from Council Wharf to the Stevens store should be rebuilt. It is of too antique a description for that part of the town. Promoters on bond nights find it disagreeable except when the strains of the Old Cornish march are to be heard.

It may be worth remembering, and may save trouble and expense, if people who own pet rabbits, would keep them securely fastened up, as these little creatures are often the source of much damage, both to the farmer and the horticulturist, and the owners can be held liable for all damage they may commit.

The government surveyors have finished the survey of the islands between Kingston and Brockville, and find 839 acres have not yet been sold, yet valued at \$89,670. They also found 122 islands which have not heretofore appeared on any map, the whole comprising over 24 acres in extent and valued at \$4,659. All these islands will soon be put on the market.

These sold in Belleville at 90c. for white and 95c. for colored.

He is a pretty poor mechanic or workman who cannot take the local newspaper.

A telegram was received on Wednesday evening announcing the safe arrival of Mr. & Mrs. E. W. Rathbun at Southampton on that day.

By a majority of 78 votes the imperial house of commons has passed the second reading of the bill establishing eight hours as a legal day's work in the mines.

The Chief arrested a drunken man yesterday. This is the first man who has been in the lock-up for about three months. Deseronto is the most orderly town in Canada.

People in the east end of town are all shaken up over some scandals. It is rumored that several married men and women have been guilty of breaking their marriage vows. Some of the parties are said to have left town.

The Patrons of Industry are perfecting their plans for the coming election, and will have political picnics. It looks as if the farmer was making up his mind to vote a little liberal in public matters. We will see what we will see.

A musical and literary entertainment will be given in the Foresters hall on Thursday evening, by Deseronto Council E. T. of the Grand Lodge, and the local lodge of the same name. The entertainment and promise the best entertainment of the season.

This is the time of year when some ignorant gardeners take out their shot guns and shoot off the robins and other small birds and leave the feathered bipeds should help themselves to a few fat strawberries later on in the season. The game wardens have their eyes on some of these sportsmen and examples will be made of them in the courts.

Mr. Matthew H. Sexsmith, who has been sailing during the past year, died yesterday, aged 72 years, another victim of that fell disease consumption. The funeral takes place to-day, at 1:30 p.m., from the residence of his mother, Mrs. J. Sexsmith. Religious services will be held at St. Mark's church, after which the remains will be reposed in the Christian Church cemetery.

The members of Deseronto lodge, No. 102, I.O.O.F., with visiting brethren from Niagara, altogether about eighty in number, assembled at their hall last Sunday afternoon and marched in procession to the Methodist church, where Rev. J. J. Rae, of the Methodist church, preached an admirable sermon. The choir furnished excellent music. The brethren are to be congratulated on the splendid appearance which they presented on this parade.

Mr. J. J. Bohan, district deputy of the C.M.B.A. Association, assisted by Mr. E. J. C.M.B.A. Fitzgerald, Deseronto branch, and Mr. A. W. Cooper, also of Deseronto branch, organized a new branch at Marlborough. There are fifteen charter members. The following are the officers: M. Fitzgerald, president; J. Driscoll, 1st vice; J. Fitzgerald, 2nd vice; J. Manion, recording secretary; J. Lione, corresponding secretary; P. Lovick, marshal; C. J. Graham, treasurer. A sumptuous dinner was tendered during the evening. Eloquent addresses were delivered by Messrs. Bohan, Ed-

Mr. Field, who supports Mr. Winchell in "The Countryman" does not give a burlesque of the Dutch character, but an artistic representation which is enjoyed by no one more than by the Germans themselves. This company appears in the Deseronto Opera house, Friday evening, May 10th.

At the recent examinations in medicine at Queen's University Mr. E. H. Lapp, of Deseronto, passed the first year examination in botany, chemistry, philosophy, anatomy and materia medica. Mr. T. J. Butler passed the intermediate exams in anatomy, physiological chemistry, and sanitary science. Mr. J. A. Boucher passed the intermediate in analytical chemistry, and senior chemistry.

In the legislative assembly this week the principal subject of interest was the stirring debate on Mr. Marten's prohibition bill which was opposed by the government. The alleged reason that it was not within the scope of the legislature to pass such a measure. The bill was rejected by the usual party vote. The government have submitted a bill for a plebiscite by which the electors will pronounce upon the desirability of prohibiting the importation, manufacture and sale as a beverage of intoxicating liquors. The question will be submitted at the municipal elections on the first Monday in January, 1894.

Parlor Social.
The ladies of the Steady Gleamers' Society of the Presbyterian congregation will hold a parlor social at the residence of Mr. William Mitchell, Main street, on Friday evening, 12th inst. An excellent program will be submitted. Admission, two for 25 cents.

General Office.
Mr. J. A. Macdonald has been promoted to the ledger department in the general office of the Rathbun Company. He succeeded in the mail dispatching department by Mr. A. C. Stover. Mr. John Edwards, Jr., enters the merchandise department as assistant to Mr. Wieman.

Casualties.
On Saturday Mr. Robert Farrell, floor boss in the big mill, was engaged removing some pieces of slab from a slush table when his left foot came in contact with a saw. As a result the little toe was cut off. In the cedar mill Ira Thompson was struck on the wrist by a flying piece of stuff and very severely bruised. Dr. Newton attended both men.

Board of Health.
The board of health issues a notice in another column which should be carefully read and acted upon. The board, in accordance with imperative instructions from the provincial board, is determined to insist on a strict compliance with the regulations. People should remember that the new boxes should not be used without dry earth, lime or ashes; sawdust is of no use. These will absorb all matter. Lime and ashes should be poured in each time after the box is used. Attention to this will be beneficial to health.

Burt's Pavilion Theatre.
Mr. Burt is making great preparations to give the Deseronto people a grand treat on the opening night, Monday, May 8th. Notwithstanding the inclement weather he has every department in apple order, and has gone to enormous expense to secure talent so that he could be able to play all the larger towns and cities during the coming season. The small boy, the father, mother, sister, aunt and cousin are all invited to his admission fee, which is only 25 cents for adults, and 10 cents for children. No extra charge for concert or reserved seats.

The Weather.
The weather still keeps backward and cheerless. A heavy rain set in on Sunday evening and continued all through the night and day. Another rain storm commenced Wednesday evening and continued steadily all day yesterday. The temperature is still low, though on Wednesday it reached 60° in the shade. As a result of this heavy rain roads are in a deplorable condition, fields are converted into swamps, and farmers are much depressed in consequence, as it is impossible, especially on low ground, to attempt seeding operations. Vegetation is backward, though the grass during the past few days has begun to start up nicely. Rivers are high and floods are reported in Manitoba, Ohio, Illinois, etc. In England, France, and other parts of Europe a drought has been going on for some time, and farmers are crying out for rain.

Obituary.
Mr. Dennis Callaghan died at his residence, Trenton, on Monday, aged 44 years. Deceased had been long in the employ of the Rathbun Company, in which he was a foreman in a dail in any other employ. He occupied the position of foreman on the Trent, Moira and other operations under his brother, Mr. Thomas Callaghan, superintendent, and was held in high esteem by the Rathbun Company who regarded him as one of their most capable and trustworthy managers. About two years ago he had an attack of grippe from the effects of which he never fully recovered. About a week ago he became very ill and serious complications following, the end rapidly approached. He bore his sufferings with becoming patience and fortitude. Deceased was a brother of Mr. John Callaghan of this town, was twice married, and is survived by his second wife and a daughter by his first wife. He was a member of the C.M.B.A. and his wife will receive the usual endorsement given by this fraternal association. The funeral took place on Wednesday at Trenton. A large concourse of friends including large numbers from Campbellford, Tynesburg, Belleville, etc., were present to pay the last tribute of respect. Among others Messrs. T. Butler, of Deseronto, T. Dolan, of Ottawa, and other leading officials of the Rathbun Company, followed the remains to their last resting place in the Roman Catholic cemetery at Trenton.

AN EVENING AT HOME.

In one of those cozy parlors, on one of the principal streets of the town, there sat around the open grate the father, mother, daughter and a young man who had for a long time been visiting in the city. The parlour adornments showed refinement and culture, and many a brace was plainly the choice of some one who was endeavoring to keep the mind of the receiver on the donor. The conversation of the parties this evening was upon various subjects, when at last it reached that interesting subject, the coming marriage of the daughter to the visiting gentleman. The next subject for the bride's dress was the subject of considerable deliberation, and when that was decided upon the other necessities to complete the bride's trousseau were quickly called to mind, and the linen for the house was not forgotten, when the young lady said that the next subject for her mother would be company her to Mr. R. Miller's, St. George street, to make the necessary purchases, as he had the best goods and his prices were only fair. No day but what this happy couple will procure their lace curtains and other furnishings at the same place when they are needed.

MARINE NOTES.

Capt. Shaw of the schooner Eccles, picked up, near Colborne's, the spar of the steam barge Peris, lost, with all hands, about three years ago. No trace of the vessel having been discovered since. The large spar is probably lying at the bottom of the lake. The spar has detached itself from the wreck and floated on the water. It is a fine mast, worth \$150.

The new straight-back steamer Selwyn Eddy arrived at Buffalo with 139,200 bushels of wheat, the largest wheat cargo ever carried on the lakes. This cargo weighed 4,176 tons.

The Rocket has been overhauled and will run this summer between Coraw's and Montreal.

Eastward bound vessels carried 279,861 tons of freight from Chicago last week, against 33,753 hauled by railroads.

Algona, Mich., is certainly a lake-faring town. One hundred and twenty-eight of its residents are captains, mates or wheelmen.

The United States inspectors examined the Varuna and Alexandria during the past week.

The Lachine canal opened on Monday. The Alexandria commenced her weekly trips this week.

The Campania arrived in New York on Saturday. As this was her first try, no attempt was made to lower the record.

The White Star line are preparing to build a steamship to be named the Gigantea. She will be larger than the Campania. She will be 700 feet in length, 68 feet beam, and 45,000 horse power and will make the voyage from Queenstown to Sandy Hook in a little over four days.

The water in the lake has risen over eighteen inches since navigation opened. The fog horn machine on Nose Mile Point has not yet been erected though it has been sorely needed some nights during the last few days.

The yacht Siesta has been hauled out at the Deseronto wharves.

The tug Nora has been shipped by rail to Lindsay where it will be engaged in the operations of the Rathbun Company.

The Rideau Belle has commenced her trips on the canal, the water of which is very high this season.

A break in the Cornwall canal on Monday made vessel men anxious. Another break occurred on Wednesday thus delaying traffic.

The steam barge Iona will make tri-weekly passages between Oswego and Trenton, carrying passengers. Capt. John Vanstine commands the fine vessel.

The Clyde ship building yards still maintain their supremacy. They recently turned out the Campania the fastest screw steamer built in Canada. The Leopold II the fastest paddle wheel steamer. These big brained Scotchmen are not easily vanquished.

The Picklebin was the first ocean steamship to reach Montreal arriving on Wednesday. This is a week later than last year.

Seed Time and Harvest ARE PROMISED.

We must not be discouraged that seed time comes late. We are not
worse off in this country than in Europe, where for two months in London, and
Paris particularly, not a drop of rain has come from the clouds. Farmers are
"in a waiting attitude." Business men are in the same line.

WITH ONE OF THE FINEST STOCKS OF GOODS

It has ever been our pleasure to place before the patrons of Cheapside, we are
waiting for favorable weather to dispose of them. Every goods suited to every
style and class of weather. When it rains trade should not stop. Men's Rubber Coats,
Men's "Rigby" and "Melissa" Waterproofs, Silk Umbrellas, Janeli, Ala-
paca and Gingham.

Every size, style and price of Ladies' Waterproofs in Tweed effects, in
Cravenette and Heptanette, in all the new styles and cuts to fit short or tall
people. Even to the headgear we are prepared for wet weather with pretty
Tam o' Shanter and Salliers.

For housecleaning weather the greatest stock of Carpets, Curtains, etc., in
the Central District.

For warm weather anything and everything in Dress Goods, suitable for
any climate—Hosiery, Gloves, Corsets, Laces, Muslins, Lawns, Challies,
Prints, Satens, etc.

Grand stock in Cloths, Tweeds and Gents' Furnishings in every class.
Hats and Ready-made Clothing.

EVERY DEPARTMENT FULLY STOCKED.

Millinery Department.—Stock complete in every line and branch, in every
style and make.

New goods arriving on every morning's express.
Miss Macdonald, for six years with Messrs Sutcliffe & Sons, of Toronto
and Brampton, has abundant experience in the Millinery line. She, with Miss
O. Marsh, a born milliner, with their able assistants, are bound to please even
the most fastidious. We confidently solicit a visit from every lady of the
town and surrounding counties, in the assurance that all millinery orders
entrusted to our charge will be becoming, stylish and satisfactory.

NAPANEE ROAD.

From Our Own Correspondent.

Monday morning, a pleasant day on our road
people took advantage of it.

Farmers are busy in all directions setting
out fruit trees and plants, and planting early
potatoes. Our people are also busy making
gardens and clearing their front yards; every-
thing is beginning to look pleasant.

Mr. Robert Hargis has taken the milk
drawing from Mr. Samuel Sager.

Fall wheat is not as good as we expected it
to be; the soil has thinned it out.

Meadows are looking fine, except a few
new seedlings.

Mr. Geo. Clement lost a fine horse last
week.

Farms are having bad luck raising young
pigs this spring, so many of them are dying.

Uncle Tom's Cabin Company was seen
going to Deseronto last Monday. No doubt
but that it will be patronized.

The Stanley Conger is laying brick for a
new house in Deseronto which is being built
for Mr. Edward Cole.

Dr. Bradshaw, of Napanee, is attending a
sick horse at Mr. Robert Bowler's.

Mr. Richard Holland is building a lot of
patent fence for Mr. Levi Sager. Dick knows
how to do it, for he is an old hand at the
business.

Mr. Donald Gunn has purchased the farm
known as the Chas. McGreer farm which is
now occupied by Mr. S. Sessmish.

SOLMESVILLE.

From Our Own Correspondent.

The late rains have been very unfavorable
for farmers in their seedling operations. A
great many have been paying attention to fence
building.

Full grain and meadows are looking very
well.

Mr. Frank Solmes is erecting a splendid
hog house. When completed it will be one of
the best in the county.

Mr. R. A. Brooks is getting material ready
to improve his house. Mr. Burns, of Picton,
is the carpenter.

Mr. and Mrs. M. Way were visiting Mrs.
Way's father, Mr. Loughlin, of Roblin, last
Sunday.

Mr. Martin Foster is beautifying his place
by setting out maples.

There was a great meeting last Sunday
on account of quarterly meeting.

Mr. Samuel Spencer has been surrounding
his house with the McCallum wire fence, thus
giving it a very fine appearance.

Mr. Asa Foster of the Belleville Business
College, was visiting Mr. Jacob Foster last
Saturday.

House cleaning is the order of the day.

Mr. Ira David was appointed by the
quarterly board as a delegate to the approach-
ing annual meeting.

We are sorry to state that Mr. J. B. Cronk
is not improving as rapidly as his many friends
would wish.

KINGSFORD.

From Our Own Correspondent.

Our school house had a narrow escape
from being burnt by the ignition of a pile of
shingles in the school yard by it, it is supposed,
sparked from the chimney. Happily the wind
was in a favorable quarter and the effort of
the teacher and pupils aided by some neigh-
bors who happened to be in the school yard, pre-
vented the fire from spreading beyond the single pile.

Mr. Geo. Abbott, of Tweed, spent Sunday
at his father, Mr. Asa Abbott's.

Mr. W. J. Sargeant, B. A., of Trinity Col-
lege, Dublin, at present residing in Kingston,
has been visiting friends in Kingsford and
Reading during the past few days. We are
pleased to learn that his health is much im-
proved, being in fact fully restored. He has
decided to make his permanent home in the
Limestone city, where the recognition of his
well known literary abilities has procured for
him a position with congenial literary employ-
ment.

Wm. Gordon, of Dorland, Adolphus-
town, spent Sunday with his parents.

Messrs. A. Hewitt and Jons Doyle have
been elected treasurer and secretary respective-
ly for St. John's cemetery, Selly.

Mr. James McKittick has been awarded
the contract to erect a valuable school house
for St. John's cemetery, Selly. Parties wishing
to place their names for the Rev. R. Atkinson
for information.

St. Jude's church has entirely lost its ven-
ue for the purpose of its church school. The
Ladies' Aid Society is now directing its
attention to a new fence to be placed in front
of the renovated church.

Mr. Catherine Brennan, of Albert, is visit-
ing her daughter, Mrs. T. F. Sessmish.

TYNDINAGA RESERVE.

From Our Own Correspondent.

The Sunday schools on the Reserve opened
for the summer months under auspicious cir-
cumstances last Sunday. There was a good
attendance of pupils and a fair staff of teach-
ers.

The Parson has been obliged reluctantly to
waive a room to give up the services held so
successfully all winter at Peter Brant, Deseronto.

It is reported that on his way to Picton the
new telephone line will call on business at our
council house and also at the "Pines."

The Chiefs of the Band met in the Council
house on Wednesday the 3rd inst., and ar-
ranged the price to be paid some of the
occupants of the newly surrendered land for
their possession.

We hope a well known contractor of Des-
eronto, who was seen on black foot avenue
looking for an employee, found the man he
wanted.

John Sero, of the council house neighbor-
hood, appears to do a good blacksmith busi-
ness.

Since the fine weather of the past few days
farmers may be seen on all sides preparing
the land for seeding.

The energetic Robert loaded another
schooner at the grain dock on the 10th inst., and
Johnny Amos Brant is going to start a
livery bus at residence in the west end of
Deseronto.

SATISFACTORY FINANCE IN PRICES
Our shippers find that good prices can be
realized for good animals, but ill conditioned
ones are a drag on the market. Our stock
raisers admit that most of their animals
come from using *Pedigree Blood*. It
tones up the whole system. Bu and
get Dick's.

GREEN POINT.

From Our Own Correspondent.

Mr. and Mrs. F. Terwilliger and daughter,
of Picton, were the guests of Mr. and Mrs. A.
Vandusen on Sunday.

Quarterly meeting was held in Bethesda
church last Sunday. There was a very large
attendance and the Rev. Mr. Down, preach-
ed an able sermon.

A quantity of buckwheat taken in store
through the winter was shipped on Monday
for Kingston from Cole's store house.

Farming was generally commenced last
Monday, although the land was very wet.

Mr. Thomas Robin has carpenter shop
building an addition to his barn.

Seed time and harvest will surely come.
The baker is on his route again. Egg buyers,
deaken and hide buyers, and lots of rain.

ROSLIN.

From Our Own Correspondent.

Mrs. John Wilson was taken ill last Thurs-
day. She only lived a very few minutes after
her husband came into the room. The funeral
took place at Tweed last Sunday.

Mr. Gilbert Latta is unable to do any work
as the result of a serious accident which befel
him.

Mr. McFaul, of Belleville, is yet under
the doctor's care and hopes of his recovery are
not strong.

Three of the past few weeks have pre-
vented all our people from doing much work.
Mr. Wilson had grand success at his revival
meetings at Zion Hill appointment.

Mr. J. Sullivan expects to enlarge his hog
yard this summer.

Plainfield can turn out more cheesemakers
than any place of its size. It sends out over
thirty cheesemakers every summer.

CHISHOLM'S MILLS.

From Our Own Correspondent.

We are glad to see fine weather here again.
The farmers are all busy sowing.

Mr. John Fennell, of Tamworth, and Mr.
and Mrs. M. Fox, of Forest Mills, were guests
of Mr. Charles Fennell on Sunday.

There has been a great deal of sickness in
this district this spring.

On Thursday, 4th inst., the wife of Mrs. J.
W. Wilson, of Hanington, died. The re-
mains were placed in the vault at Tweed last
Sunday.

We were glad to have a call from Mr. John
McLaren, after his sickness of over a month's
duration.

Mr. J. Chisholm, on Monday, delivered a
load of hog, fourteen in number, which he
sold to a Belleville butcher for a handsome
figure.

ROXBOROUGH.

At the annual meeting of the Methodist
Sabbath School, Mr. M. P. Dingman was
elected superintendent. As he is an efficient
worker the appointment is very popular.

The Mohawk Glee Club gave a concert on
Tuesday night. It was a most successful
affair. The proceeds were devoted to circuit
purposes.

Mrs. M. M. Dingman who has been very
ill all winter, is now improving. Her father,
Mr. Robinson, is regretted to state, is very
poor health.

Miss Maggie Simpson leaves on Friday for
Belleville to visit her brother, who, we
doubt, take in the great exposition in that
city.

Mr. S. J. Foy is making preparations to re-
turn to his home in the following week.

A quantity of buckwheat stored here during
the winter was shipped to Kingston last
Tuesday.

Mrs. Gileon Wilson has removed to
Demoreville.

Mr. Bill Craydell has material on hand to
put new floors in his store.

At the last meeting of the quarterly official
board of the Methodist congregation, Mr.
Samuel Spencer was appointed to represent
the circuit at the district meeting which will
be held soon in Picton.

INTERESTING TO FARMERS.

To the Editor of The Tribune.

Sir,—Permit me to call the attention of the
farmers who read THE TRIBUNE to the val-
uable literature sent free by the Ontario
Government to the members of the Farmer's
Institute. They have made the Institute the
medium for the dissemination of the reports and
bulletins issued under the direction of the
Department of Agriculture, which every far-
mer should read and place in the hands of his
family.

This year every member receives the
following reports: Agricultural College and
Experimental Farm, Farmers' Institute;
Dairymen's and Creameries Association;
Bureau of Industry; Bulletin from Agricul-
tural College and Experimental Farm, Bureau
of Industries; Special on Roadmaking and
Agricultural Education, with other special
bulletins and leaflets, also Mrs. Jones' "Dair-
ing for Profit." The latter work is advertised
at 30c and has had an immense sale. The
members of the Institute get them all for the
nominal sum of 25c annually to pay cost of
advertising, keeping accounts and sundry
expenses. I know many will say they
have no time to read these reports. I can
sympathize with the remark. I know how
it is from experience. But the time has come
when we must take time to read up matter
relating to our calling or take more time in
observation. The profits of the ordinary far-
mer are almost too small to live on.

Must study hard to increase them. It is
necessary for us to keep abreast of the times
as for the manufacturer the mechanic or the
professional man. We cannot afford to mis-
apply any of our labor. The government at
Ottawa and Toronto are endeavoring to supply
all necessary information free. Why not avail
ourselves of it?

You should send your name at once, so that
all the papers for 1893 may be sent you. S.
Rusell, Deseronto; N. Buntin, Thurston;
A. McFarlane, Melrose; Jonathan Allison,
Marysville; or myself, Read or the
secretary, John Slides, Thompson, will for-
ward any names or subscriptions given us.

Any person who has paid his membership fee
in 1891 and who does not receive his papers
in due course will please notify the secretary
by a post card, as where a number of persons
take names in all sorts of places mistakes will
naturally occur.

CHURCH OF THE REDEEMER.

The services last Sunday were well at-
tended. Rev. Dr. Smith, of Queen's Col-
lege, was the preacher on both occasions.

The monthly consecration meeting of
the Y. P. S. C. Endeavour in the evening
was held by Miss Gordon and there was a
very large attendance. The new officers
for the next six months were duly in-
stalled.

The special collection next Sunday is
for the Home Mission and Augmentation
Schemes of the General Assembly. These
important schemes ask for an average
contribution of 25 cents per member. It
is hoped there will be a generous response
from each family in the congregation.

The Pastor will conduct the services
next Sunday at 11 a.m. and 7 p.m.

The Librarian of the Sunday school has
added a large number of new volumes to
the list which now contains nearly as
thousand volumes. A new catalogue has
been printed. The school has one of the
best equipped libraries in the province.

The monthly meeting of the Ladies'
Missionary society was held on Wednes-
day afternoon and was well attended.

The monthly meeting of the "Beady Cleaners"
Society held a prior social at the resi-
dence of Mr. Wm. Mitchell, Main street,
next Thursday evening.

ST. MARK'S CHURCH NOTES.

The Sunday school begins its morning
sessions next Sunday at a quarter to ten.
The men's bible class will be held at 2.30
p.m.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curls, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osborn,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children and use Castoria instead of the various cathartic nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other harmful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchner,
Cortney, Ark.

Castoria

"Castoria is well adapted to children than I recommend it as superior to any prescription known to me."

Dr. A. Archer, M.D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although to only have among our medical supplies what is known as regular products, yet we are forced to confess that the merits of Castoria will win us to look with favor upon it."

LOCAL ITEMS.

Plan open for "Countryman Co." on Monday, at Naylor's.

Mr. O. J. Carter is making an addition to his shop on Main street.

Her Majesty the Queen opened the Imperial Institute at London last Wednesday.

Mr. Dalton McCarthy addressed a very large mass meeting in Kingston last Saturday evening.

Miss Hest Hatch, of the Oriental house, has been making sundry improvements to her premises.

A special meeting of Deseronto Council, R. T. of T. will be held in Forester's hall, this evening at 7 o'clock.

The steamer of the Deseronto Navigation Company will carry excursionists from Napanee to Picton on the 24th of May.

A number of townspeople drove down to Napanee during the week to hear Messrs. Croasley and Hunter, the famous revivalists.

Two or three men who went to Michigan have returned to Deseronto, having found work scarce and times dull in the lumbering regions.

Boys are indulging in fireworks. This is not a safe pastime in a town like Deseronto. Is there any by-law against the sale of these fireworks?

Nobody likes the man who is constantly finding fault, but everyone is glad to take advantage of the improvements that his constant kicking brings about.

The Ethel Armstrong Concert company will be at the opera house on Thursday, 25th inst. They come under the auspices of Deseronto Lodge, No. 102, I. O. O. F.

Mr. E. T. Miller has been in London this week attending the meeting of the Supreme Council of the Royal Arcanum as a representative from the Deseronto Council.

The Royal Templars and Independent Foresters postponed their entertainment, which was to have been held last night, on account of the death of Mrs. Stokes.

The shaft of the big stock gang in the Big Mill was broken on Wednesday one of the pillar bolts having given away. It caused much damage and considerable delay.

Dr. Cadieux, the famous temperance orator, will deliver lectures in the Methodist church, on Sunday at 4 p.m. and Union Hall, Monday evening at 8 o'clock. Do not fail to hear him.

Mr. Howe, inspector of the underwriters insurance association, Toronto, spent Saturday in town making thorough tests of the different hydrants and the apparatus of the fire department.

Mr. J. B. Ashley, of Belleville, on Saturday last removed to Deseronto cemetery the remains of his father, Mr. Augustus Ashley, which were interred at Cataract cemetery, Kingston, ten years ago.

Rev. Samuel Houston, M.A., pastor of Cooke church, Kingston, was elected Moderator of the Synod of Toronto and Kingston, of the Presbyterian Church in Canada, at its meeting this week in Guelph.

Some cellars on Dundas street were flooded by the over-zealous hosiery men during the tests of the water works system last Saturday. The council will probably be asked to make good the damage caused in some cases.

An immense amount of freight is moving over the B. O. Railway and the side tracks at Deseronto Junction, well as the Deseronto yards are continually in a very congested condition. People are astounded at the vast quantities of lumber which come in over this line.

We have received a copy of the order of service used at the laying of the corner stone of the new Pilgrim Congregational Church, Boston, of which Mr. B. B. Albright, who visited Deseronto last year, is the successful pastor. The new church will be a very handsome edifice.

Michael Davitt, member for Northeast Cork, has resigned his seat, the expenses of the contested election of North Meath having forced him into bankruptcy. Mr. Davitt is held in high esteem by all parties in the house of commons. No member in the house meets with a more respectful hearing.

Last Sunday being really a spring day a great many of our people walked into the country via the B. O. track to enjoy the country air and see the grass and crops growing. A prominent merchant of our town took the opportunity to Napanee on railway velocipede and enjoyed the trip immensely.

The Home Knowledge Association, of Toronto, which did so much to injure the book trade in the summer town of Ontario, has collapsed. All persons who were induced to sign their names to notes entitling them to membership in this association will have to pay, the courts having decided that these notes can be collected.

Notwithstanding all the pressure which the Empire and court party could bring to bear, the German army sent out by the army bill by a great majority. This shows that the reaction against militarism has not set in among the German people, and that the battle between the classes and masses will be fought during the next few years.

There was a financial panic in New York last Friday and several failures followed. National Cordage and other industrial stocks took a big tumble. The Bank of Victoria, Australia, has failed, making eight large banks which have failed in Australia during the past few months. Trade in Australia is completely demoralized.

The hop growers of Prince Edward and other counties did themselves left in the lurch and are now forced to sell their last season's crop at very low prices. They entered into a combine with certain dealers to sell under a certain figure. The dealers sold all their old stock at the figures agreed upon, and then conveniently forgot the agreement and grooved away for the locomotives and yard engines.

The smoke issuing from the smokestack of the Big Mill is not of that lanky black colour which formerly poured forth from the old machine shop pipes carrying with it such a cloud of cinders as to blind the eyes and cover everything out of doors. This is a great and welcome change. Let us hope that the next move will be in the direction of banishing the dense volumes of sulphurous, lung filling smoke which belches forth from the locomotives and yard engines.

Mr. W. J. Sargent, formerly of Kingston, but now of Kingston, kindly favored us with a call Monday, and we were much pleased to hear him looking so strong and hearty. He evidently recovered from his former illness. The readers of The Tribune have often been placed under obligations to Mr. Sargent by interesting contributions from his pen. We are glad to hear that Mr. Sargent, who is a graduate of Trinity College, Dublin, is now engaged in a general literary employment in the Limestone City.

Mrs. James Davidson has again moved into her former residence at Shannonville.

Our thanks are due to Rev. R. J. Craig, M. A., for copies of late New Craig papers.

Police magistrate Flint, of Belleville, invests largely in hotels. He has purchased the Guelph hotel in Shannonville and sublet it to W. F. W. of Toronto.

A travelling bag buyer is alleged to have carried off a bag of potatoes from a residence in the east end at the same time that he removed a bag of rags. The thief is on his track.

Capt. Sullivan and Lieut. Parkes, the new officers in charge of the Salvation Army corps, are meeting with much success. Both ladies are becoming very popular in this community.

The various clauses of the Home Rule Bill are now being fiercely debated. The speaker ruled out of the amendments of the opposition out of order. There have been many divisions but the government has thus far been sustained by majority which are generally very large.

We hope every farmer who is a reader of THE TRIBUNE will read Mr. Hanley's letter in another column. The amount of useful information which may be derived from the payment of a small fee is indeed surprising. No intelligent farmer can do without these agricultural bulletins which are so generous.

Mr. Rayburn, of the Deseronto Flour Mills, received a letter yesterday from Fort La Reine, Manitoba. It dated May 8th, and it stated that the weather in the province was perfect and it looked as if there was to be a drought. Seeding would be practically completed by the end of this week. We are inclined to believe that a good season is in store for the Prairie province.

The Campbell Mill.
Mr. Wm. Mitchell, master builder for the Rathbun Company, is hurrying forward the new mill of the Rathbun Company at Campbellville. It will be 100x35 feet and two stories high, with engine and boiler room 26x40 feet. It will be fitted out in first class style.

Fire at Shannonville.
The brick hotel owned by the Hastings Loan Company and formerly occupied by Mr. James Davidson, was discovered to be on fire Sunday morning at four o'clock. By the time the fire was extinguished, before much damage was done; supposed to be the work of an incendiary.

Crystal Hall, Belleville.
In another column will be found the announcement of Messrs. W. J. Reid & Co., of Belleville. They have an extensive establishment and are worthy of a visit within the city. Their variety of goods this spring are greater than ever before shown. Be sure and read the advertisement.

Postponed.
The late Mrs. Stokes having been a member of the Steady Gleaners' Society, the ladies have postponed their social announced to be held this evening at the residence of Mr. Wm. Mitchell. The event will be held at the same place on Tuesday evening, 18th inst. Admission, two for 25 cents.

Survey of the Bay.
Mr. Anderson, chief engineer of the marine department, is arranging for the continuation of the work of the hydrographic survey of the Bay of Quinte from Trenton to Kingston. The triangulation of the bay was completed last year. This season the work will consist of taking soundings of the bay on which to base a new chart.

Citizens' Band.
The Citizens' Band was out last Friday evening for the first time this season and gave a number of excellent selections at the Band stand. A vast multitude were present to enjoy the music. The Band are considering the offer for an engagement at Campbellville on the 24th. They have secured a valuable acquisition to their numbers in the person of Mr. Harry Norville, late of the famous Heintzman band, of Toronto.

Prentice Boys.
At a late meeting of Victoria Lodge, No. 9, Prentice Boys, Bro. J. D. Monaghan, Wm. Huff, and Sidney Kitchin were chosen as delegates to the Grand Lodge which will meet in Deseronto on June 19th. About 100 delegates will be present at this important meeting. A strong committee of the local lodge is busy making arrangements to ensure the pleasure of the visitors and a welcome worthy of Victoria Lodge and the Town of Deseronto.

Burke's Pavilion Company.
Burke's Ucles Tom's Pavilion Theatre Company appeared in Deseronto last Monday evening. The street parade at noon drew vast crowds who heard the music of the band with great pleasure. The equipment of this company is complete down to the last item. The company has been long on the stage and the energetic manager to ensure the comfort of the pleasure loving public. The orchestra is a first class musical organization. The spacious pavilion, which this was the sixth time the Company has played in Deseronto, was filled with an enthusiastic audience, and by their repeated shouts of applause showed that they were well pleased with the dramatic talent which brought out the stirring and pathetic points in their popular old play. The personnel of the company is particularly strong and there is no reason why this season should not be even more successful than those of the past.

Death of Mr. James Stokes.
Mrs. James Stokes passed away yesterday morning, 11th inst., aged 46 years. The intelligence of her death though not unexpected, was a shock, as she was born in the deceased lady had been in poor health for two years, and during the past six months was unable, with the exception of a few intervals, to leave her room. Dr. Newton, the family physician, at an early date forewarned that recovery was impossible. The time of her illness was characterized by several times during the past winter she was supposed to be at death's door, but she rallied as frequently with a vitality which was most surprising. Her sufferings at times were most intense but she bore them with a murmur displaying a spirit of Christian fortitude. She was long and thin, and her many kind friends who visited her in her sickness. Deceased, whose maiden name was Miss Stokes, was born in High Falls, Ulster Co., N. Y. With her husband and family she came to Deseronto about eleven years ago and has resided here ever since, fulfilling the duties of a kind mother and an obliging neighbor. She was a member of the Presbyterian congregation and a devoted member of the Sunday school, taking also an active part in the various departments of church work. She is survived by her husband, a daughter Mrs. John Hoppins, and a son John. These have been the sympathy of all the community in their great bereavement. The funeral will take place on Saturday afternoon at two o'clock. Religious services will be held in the Church of the Redeemer, after which the remains will be removed to the vault of the Deseronto cemetery.

A WORD TO THE WISE.

This verse is intended as a word to the wise, if you ever use Baking Powder, try "The Surprise."
 Of powders there are many; of opposition there's much,
 But here is a powder no other can touch,
 For licentious and pastry; it's really a surprise
 To see how lovely and quickly they rise.
 The best, did I say? Well, try it and see,
 Then your grocer you'll tell, that's the powder for me.

A LITERARY PROPOSAL

An Example of Frankfort Moore's style of Writing.

The place which he had vacated was almost immediately occupied by the interpreter of "Alice in Wonderland." He wondered "Miss Lancaster could suggest what was meant by the Seven Maidens with Seven Mops. That was a point which had, he knew, to be faced, sooner or later, by every one who were the maid? What were the Mops?"

"Seven," said Miss Lancaster thoughtfully. "Why should the number be specified exactly seven—why not four or six, or for that matter, five or eight, or nine? It is not the existing system of British Parliaments so peculiarly as required."

Mr. Crawford started to his feet and took a few steps hurriedly up the deck to conceal his emotion.

He did not return to his seat for some moments: when he did so at last he laid his hand upon hers.

"Miss Lancaster," he said, in a voice that was slightly tremulous, "I am a middle-aged, a student, and a literary man."

Bertha looked at him. What could he mean, she wondered, by formulating this progressive list of misfortunes?

"I have also a daughter," he said, as if by way of concluding the catalogue of misfortunes.

"But I have been a widower for five years," he added, brightening up; "and if you will, I would like to join your fate with mine in the enterprise which I have at heart. I do not think you would ever regret it."

"Mr. Crawford," said the girl, "I am not so certain about the Septennial Parliaments being referred to. There are seven Mops with Seven Mops, you must remember—that is fourteen in all; that puts a new complexion on the matter."

"It does," Mr. Crawford admitted after a pause.

"But regarding the other subject—"

"Then, if we find that our first idea was wrong," said the girl, "should we not leave it to you to decide upon the matter of importance before deciding upon the exact course which should be pursued?"

Mr. Crawford was silent for some time. Then he said, "You are right, Miss Lancaster. One should not act precipitately."

In a matter that concerns both of us so nearly, if I have ever had a thought in my mind, I find there were fourteen Cabinet Ministers in the House of Commons when 'Alice' first appeared, and not seven."

"I believe to be my duty. I will go below and make a note of your thoughtful argument regarding the Septennial Parliaments."

He rose and made for the companion, but when about half way across the deck, he stopped, and stroked his chin as he collected his thoughts.

He was exact, as if he recollected having forgotten something. He glanced back at Bertha for a moment, and then walked on.

It will be perceived from these extracts that the author possesses a distinct style of his own, may, he has gone so far as to develop peculiarities. One peculiarity is a habit of placing his words both forwards and backwards, giving them in their transposition a totally opposite meaning.

For instance, "The most promising Liberal candidate is the candidate who is most liberal with his promises."

or, "He will express the soundest of views that to say, the views of the sound best." Sometimes he draws his parallels out into two paragraphs instead of two.

"The girl stood at a window watching one of the under-gardeners working the lawn-mower. Pain was at her heart."

She could not accept the suggestion made by her instinct.

"Jealous of her husband—she called him her husband, of course; jealous of Eric. The idea was too ridiculous to be entertained."

"She tried to destroy by reasonable arguments the results of her instinct."

"She was scarcely successful."

"Women seldom are, when they make the same attempt."

Just beyond we have

"In the library, Julian Charlton had gone to look out a legal document; he was standing at a window watching the operations of the lawn-mower. His hands were clenched, and his eyes were gleaming."

"Fool," he said, "jealous of that clown. No, not jealous. Not I!—not I! Jealous of him—him—a common boor! Pah! as reasonable to be jealous of that lad outside, and he looked at the undergardener working the lawn-mower."

"He was endeavoring to recover himself out of his jealousy."

"He was scarcely successful."

"Men seldom are, when they make the same attempt."

This is Frankfort Moore's style of writing.

Heads That are Educated.

"Animals are advancing intellectually," said Albert J. Coler, and otherwise, "I have just been reading about a lion that has been taught to wrestle with his master, and it is quite a marvel at the Gracioso Roman art. Only the other day I saw a long account of a kangaroo that puts on 10 ounce boxing gloves and squares expertly with the man who has trained him. He retires to his corner when time is called, and does not violate any of the Marquis of Queensberry rules in the course of a set-to. I have seen horses play musical instruments with their hoofs in Paris, and I saw two cats box in splendid style at Coney Island. They had tiny boxing gloves on their front paws and stood on their hind ones while they upped and downed each other in the veteran pugilist of the prize ring. I have seen a dog play a two-syllable word by means of alphabet cards. I have heard of a black-and-tan that knows over 800 English words. I saw an elephant play a hand-organ, and a mule walk a tight rope. I have watched canary birds fire off small toy cannons and push wheelbarrows at the word of command. Even fleas have succeeded in doing things that are out of the flea's sphere. I wouldn't be surprised to learn that somebody had taught a microbe to mix drinks and a leavened pig is no longer the only exponent of erudition that brute creation can boast. The educated porker is a back number now, and so is the dancing bear. The spinning kangaroo, the wrestling lion and the somersault throwing dog terrier are being thrown into the shade, and that is not all. Greater things are expected from the four-footed creatures. Lots of them are already making good livings for lazy, good-for-nothing men."

THE VISION.

BY EDDIE MILLER.

The night was dark and lonely.
And the moon had left the sky,
And Columbus stood in the morning breast
His deck which rose on high.
His face had lost its sternness,
And his eye had lost its hope,
And the cold waves of the Atlantic
Kissed the West advancing boat.
For four long weeks the vessel sped
Along the Western track,
And how no land was to be found.
And the sailors' cry of "No land!"
And as he leaned against the mast
Should he stare in spirit faded.
And then with tears he saw Spain
No! with the Virgin Mary's help
He would now venture westward,
And when he reached the unknown land
There would be joy and rest.
And as he gazed upon the waves
That bore his vessel up,
The deepening haze that on them hung
Seemed suddenly to drop.
And a bright light filled up the space
And a picture formed in air,
And to Columbus' startled face
There came a country fair.
He saw a land with foliage green,
And grass and herbs in bloom,
And sweet voiced birds among the trees
With pleasure sang their tune.
And through the forest to the beach
He saw some strange men roam,
And who called the natives their home.
The picture faded from his sight,
And lo! a new one came.
He saw the country civilized
And glorious with a name.
He saw within those humble walls
The declaration signed,
That freed for every colonist
The law that then did bind.
Again the picture came to him,
He saw a city rise,
With noble buildings of renown
That towered to the skies.
He saw throughout the country go
Monsters that belched forth steam,
And floating castles large and tall
Came to him in his dream.
He saw a noble city rise
With buildings towering high,
With many flags and pennons
That floated in the sky.
The country was the fairest
That he had ever seen,
That city was the grandest,
Chicago, the Western Queen.
He saw then many buildings rise
With many flags that flew,
And on them written, he could see,
"Columbus, fourteen ninety-two."
Before his eyes there passed a throng
Of iron monsters grand,
That belched forth flame midst deafen-
[ing noise
Throughout that smiling land.
Again the vision passed away,
And now there came a form
Radiant with splendid glory bright,
A spirit of the storm.
With outstretched hand the vision
Pointed to the former scenes,
And Columbus heard a silvery voice,
As 'gainst the mast he leaned,
"Forward, brave Columbus, forward,
Victory waits thee there,
When the sun three times has sunk,
Thou shalt reach this country fair."
The vision faded and faded away,
Columbus called his men,
"My men, a wondrous vision I
Have had this very night:
And I could see a wondrous land
Unfolding to my sight.
Yet for three days, my gallant men,
I'll yet but press to West,
And when we reach the mystic land,
There will be wealth and rest."
A murmur 'mongst the sailors
Was heard as this he spoke,
And all the coward spirit
In them had now awaked.
Forti stepped Juan Rodrigo,
A seaman of the ship,
"Brave sir, these men are now resolved
To stop this doomed trip,
Didst notice in the Western sky,
When yester's sun went down,
We saw a pale red fireling light
That on us seemed to frown.
Turn round the ship, Columbus, turn,
And save our sailors' lives.
Turn back the ship, brave captain, turn,
Back to our Spain and wives,
Columbus paused a moment's space,
Then drew his flashing sword.
"Ye sailors of my flag-ship,
Now hear your captain's word,
For three more days these ships shall sail
Into the Western haze,
And dare a man dispute my word
This sword shall end his days.
Back to your quarters, men of Spain,
Let us serve your king!
Back to your quarters go ye now,
And soon with joy ye'll sing.
The sailors drew their swords and stood
Facing their captain bold,
Who 'gainst that horde of Spanish men
His brave sword he did hold.
The sailors now advanced and cried,
"We will not go to death:
We'll fight against this voyage
Till we all have lost our breath,
Down with the Genoese, we say,
And when comes the sun again,
Good wind, then Eastward blow."
But suddenly all o'er the ship
A solemn silence fell,
And a weird light hung o'er all,
Such as no tongue can tell.
And Columbus waved his glittering
[sword.
And pointed to the mast,
Where plain to every sailor's eye
A pale light was cast.
And in this light a vision came,
A wondrous woman fair,
With angel's form and angel's wings,
And shining golden hair,
And through the sudden silence
A voice was heard to float.
A voice so spirit like, that thrilled
Each sailor on that boat.
"Ye men of Spain, your hearts are filled
With groundless fears and sighs.
Press to the West, nor leave the way
Until land greets your eyes."
The spirit slowly faded away
And all was dark again.
But from the mutineers before,
Now all were Spanish men,
"Forward Columbus!" then cried they,
"Forward, we follow thee."
Now towards the Western sky we sail
Till countries we do see."
And thus Columbus reached the goal,
The mystic Western Land
That now rejoices proud and free,
By Freedom's breezes fanned.

DR. HART'S CELERY IRON PILLS.

The active principle of the several elements most essential to the healthy maintenance of life, is presented in these pills, in the most highly concentrated form, so that the elements which have intimate relations with every fluid and solid of the body, but in far greater measure, having to do with the subtle energy centered in the nervous system.
The causes which undo us are extremely few, but the symptoms, called diseases, and which are the results of these causes, are many. These symptoms are the result of the constitution, and the inherited or accidental tendency of the individual affected, but what matters the name of these effects if we are able to reach and control the cause?
Of all causes of disease and suffering, the chief is faulty nutrition, and this, not because people do not eat enough, but rather because of the failure of the organs to properly make use of the food. This failure, to act, again, is not the fault of weakness in the organs of assimilation or purification, such as the stomach, liver, and kidneys, as was long improperly supposed. It is rather the absence of power in the nerve centres which regulate these organs. Hence has arisen an entirely new method of treatment of restorative foods for the nervous system.
The motive force controlling and moving all the organs of the body is the blood. The blood is stored in the delicate tissue, cells of the organs, or nerve centres. These are composed of the finer, the infinitely divisible matter, and it is the power of these foods we put generally better understood, when we say nerve food, such as the extraordinary nerve medicine contained in Celery, the quintessence of which enters into the composition of these Pills.
The discovery of the chemist as well as the experimenter has established the fact that healthy life is impossible when certain elements are absent from the blood. Certain foods of iron have specific action on the red corpuscles, increasing the "course" of their use increases richness and purity of the blood. Iron is therefore prescribed for the blood, and it is because oxygen is essential to every mental or bodily function. Oxygen is the fuel, and must be ever present in abundance, to run the machinery of the body at a uniform speed. When great strain has occurred, and the store is drawn upon too rapidly, the importance of rebuilding and restoring is evident.
The achievement of absolute harmony of essential elements has been reached in Dr. Hart's Celery Iron Pills. We have effected a happy combination of Nervine Nutrients and Tonic forming a perfect nerve food as easily assimilable by the delicate child, as the debilitated invalid, as by the man requiring a race requiring super-human effort.
To sum up the arguments in favour of the adoption of this simple, economic, and common sense treatment, the effects of care, worry, over-work, and the mistakes of life, we make the following claims for Celery Iron Pills—
1. They are a nerve restoring, blood enriching, tissue building, vital food, in its simplest and most convenient form.
2. They may be justly called a new discovery, combining the most essential elements of nervous force.
3. They impart new strength, life, and hope when all else have failed.
4. They make rich healthy and pure blood and move all the torpid organs to renewed duties.
5. Their effects are so prompt, that a single trial is the most convincing argument in their favor.
6. They are akin to forgiveness to all those who have sinned against the laws of health by over-work or excess.
7. They will not tempt those made weak by alcohol or opium, for they do not contain either in any form.
8. They are the "friend in time of need" when nature is tired, and all the organs are sluggish.
9. They purify the blood, clarify the skin, and smooth away the wrinkles of care and suffering.
10. They combine in a vast pocket form all that is valuable in the most renowned mineral waters of the Spa, Baden-Baden, Vichy, and Carlsbad.
Finally—They invite the competition of imitations, counterfeits, and preparations claiming to be "just as good."—the surest test of their claims upon confidence. Our friends will confer a favor by notifying us of any attempt to substitute other preparations when this is asked for.
Celery Iron Pills are designed to meet the few causes which result in different persons under varied circumstances in such symptoms as apathy, despondency, anxiety, loss of power, loss of memory, dimness of vision, hysteria, and all forms of diminished nerve power as affecting the mind—Nausea, vomiting, weak stomach, indigestion of food, biliousness, headache, nervous constipation, dyspepsia, heart burn and all forms of torpid action of the organs of nutrition indicating lack of tone or vigor in the system—Sleeplessness, restlessness, nervous starting in sleep, nervous tremor, feeling, and the whole train of conditions varying in different persons. Kidney troubles, heart failure, and all the minor symptoms presented at different stages of these diseases. Nervous debility, and general prostration. The last informed person can see at a glance that all these diseases are symptoms of almost a single cause, nervous prostration, their very nature as a nerve food.
Dr. Hart's Celery Iron Pills are put up in a neat metallic case, thus perfectly protecting them from dampness or other causes of deterioration. These cases also perfectly adapt them to be carried on the person so that, regularity of taking is insured no matter what the occupation.
Directions.—These pills have their best effect if taken immediately after meals, as they are then dissolved, and pass into the intestines, are absorbed, and carried into the circulation promptly. For children re- fraining soon after the evening meal, a single pill every night will soon correct all causes of anxiety in the worst cases of emaciation and malnutrition. We advise the persistent, steady use of the pills in doses of one after each meal for adults in preference to large doses irregularly, which is an irritating use of such a medicine. It requires only a little time and gentle aid to rebuild the nervous system.
Especially to any subject of a truly remarkable value, we can see at a glance that all these diseases are symptoms of almost a single cause, nervous prostration, their very nature as a nerve food.
Sold by all Druggists and dealers or by mail. Price, 50 cents, six boxes for \$2.50.

A RALEIGH MAN'S REMARKABLE STORY.

CURED BY MAGIC PILE LOTION.
The Banner reporter having learned from Messrs. Pilley & Co., druggists, of Chatham, of a remarkable cure of a case of piles of long standing by the use of this Pile Lotion, and being in the neighborhood of Merivale, determined to verify the same by calling on the Chatham firm. This Pile Lotion, which lives on the south side of the St. Lawrence, in the 11th concession of the Township of Raleigh, gentleman, his 78 years, was engaged in feeding his cattle. In answer to my enquiry as to whether he was the person who used a bottle of Magic Pile Lotion from Messrs. Pilley & Co., of Chatham, and been cured of piles of over 40 years standing he replied, that he was. Have you any objection to let me about it for publication? I said: "No, not the slightest objection for I can do you no good while I live I am quite willing to do so." Continuing, he said: "It was about the year 1850 in England that I was first attacked by piles, fifty-seven years ago, and I have had them more or less every year since. I have suffered excruciating pain. They talk about the being different kinds of piles, I do not believe it. I think itching, bleeding and blind piles are only the different stages of the disease, but I have gone through them all. I have worked in the fields with my legs and feet soaking in blood from them. I have at different times while away from home, had to go to the doctor, but the road or in the fields for hours the pain has been so great from them, and only with great difficulty and suffering did I reach home. Once I remember in particular I was with my son a couple of miles away from home on a very cold day, when I was thoroughly chilled, and I felt very much worse. It was so cold I could not move, so my son laid me flat on the wagon seat and cold as I was and froze me home. I told you I suffer terribly."
The reporter here asked if he had not tried remedies and doctors for relief, to which the gentleman replied, yes, I have tried every remedy I could hear of or read of and have gone to men, who professed to be able to cure piles and make a specialty of it, both in Canada and in Michigan, but none of them could cure me, and I was told I could only be cured by an operation, but I refused such relief and said I would die first. I then heard of Magic Pile Lotion by reading in the Banner of the cure of Alfred B. Harris, of Kingsville, who had suffered from piles for many years. I at once secured a bottle from Pilley & Co.'s drug store, paying 50c. for it and was cured in about two weeks and did not use all of the one bottle. I felt immediately better from the first application; that was last fall and I have not had a sign or symptom of piles since. As I believe I am completely cured, I feel bound to tell you that I have been so bad with piles that I had to get on my hands and knees remaining there for half a day at a time, it was so painful, I could get relief. That Magic Pile Lotion is a grand medicine he continued, it is the only medicine I ever used that seemed to go right to the cause of the disease. It is not like the other ointments and other greasy remedies, it is clean, pleasant of application and leaves no stain or discoloration of clothing or bedding.
Magic Pile Lotion is manufactured by the Salvo Magnus Medicine Co., Limited, of Brookville, Ont., who also manufacture the great relief remedy Salvo Magnus and that unrivaled cough remedy, Magnus Eucalyptus. These remedies are for sale at all drug stores or can be had from the manufacturers at Brookville, Ont.—Chatham Banner.

A NEWSPAPER MAN SHOCKED.

There is a joke going the round of the press at the expense of the editor of the Atwood Bee, an unmarried young newspaper man, which is so good that it ought to be true. The young man in question it appears, was recently invited to a party at the residence of a woman, the young man was accompanied by his best girl, he met his kind hostess at the door, and after the customary salutation, asked after the welfare of the baby. The lady was suffering from a cold, which made her slightly deaf, and she mis- takenly supposed the young man was enquiring about her child. She replied that though she usually had one every winter, this was the worst one she had ever had, it kept her awake at night a good deal and at first confined her to her bed. Then nothing that the scribe was getting pale and nervous, she said she could tell by his looks that he was going to have one just like hers, and she asked him to go and lie down. The paper came out as usual next week, but the editor has given up enquiring about babies.—Clinton News Record.

"Back-ache means the kidneys are in trouble. Dodd's Kidney Pills are the prompt relief." "75 per cent. of diseases of the kidneys are first caused by disordered kidneys." "Might as well try to have a healthy back as to try to have a healthy back without aver-aging, as good health when the kidneys are used." "Dodd's Kidney Pills are used." "Said by all doctors and sent by mail on receipt of 25 cents." "Dr. L. A. Smith & Co., Toronto. Write for book called Kidney Talk."

DODD'S PILLS AGAIN.
Kingston, May 15. Mr. L. Vott of W. & L. Island, opposite this city, has been cured by Dodd's kidney pills. It is a well known fact that Mr. Vott has been a sufferer for years from backache resulting from disordered kidneys, so much so that if in a standing position he should turn round and bend his body he would take his breath away. In speaking of his case to Mr. Henry Wade, the druggist of this city, from whom he purchased the pills, he said: "I have been suffering for years with pain in my back and kidney disease. Have tried liniments, plasters, ointments and other remedies from doctors and druggists, but none of these remedies helped me in the least. Hearing Dodd's kidney pills so much talked of, gave them a trial, and as a result two boxes cured me. This cure is probably not as marvelous as many that have recently been made by Dodd's kidney pills, but it is creating considerable talk and comment among his friends and acquaintance here."
At Montreal the coroner's jury has returned a verdict of manslaughter against Wallace Rose, who kicked John McVey so severely that he died.

The committees of the diocese of Ontario will meet May 22nd, 23rd and 24th, at Kingston.

A freight car escaped on Monday and scalded three of the lower deck of the freight shed on the steamboat dock.

That is a neat piece of boulevard that Mr. May recently laid down in front of Dr. Vandervoort's residence, St. George street.

The chances appear to be in favor of England winning the Hahring was case. Sir Charles Russell is making out a powerful case.

The bucket shops in Montreal this year have already cleared investors out of half a million dollars. It is said one man lost \$150,000.

The number of commercial travellers on the road is enormous. Some days a stone could not be thrown in Deseronto without hitting one.

Bogus 25c. pieces are in circulation in many parts of the district. They are dated 1892, look quite new and hard, and can be detected by the ring.

We were glad to meet D. B. Salnes, Esq., of Schenley, last Saturday, and to see that he is rapidly recovering from the effects of his recent accident.

A wheelman's oil can and leather found on Dundas street will be returned to the owner on payment of this notice. Call at THE TRIBUNE office.

The Ontario exhibit at the World's Fair is one of which the province may justly be proud. It is coming in for much praise from visitors from all lands.

The annual meeting of the Orange (Grand Lodge of British America) has been postponed until August next, and it will then be held at Sault Ste Marie, Canada.

The Times states that Butch's Uncle Tom's Show had an excellent house in Picton and that it was the best Uncle Tom's show that had ever visited that town.

Last month the temperature of Ontario was below the average of fifty-three years, and the rainfall was a foot more than the average not to speak of the anomaly.

The occupation of the young during the summer vacation should engage the thoughts of those who study the problems of life and the problems of the nation's welfare.

The government will make a thorough investigation of the Canadian children at Montreal. Messrs. Parent and Kennedy, the two engineers, have been discharged.

The New York legislature has passed a law ordering that farmers who use wagon tires of four inches, or wider, shall be entitled to a reduction in their road labor tax.

The Synod of the diocese of Ontario will be convened in Kingston, on June 20th. The annual meeting of women's auxiliaries of the diocese will be held in Kingston June 8 and 9.

Mr. Alexander Cameron, a well known lawyer of Toronto, died on Monday. He was worth about \$1,500,000 and was probably the largest individual land owner in Canada.

Police statistics show that the arrests for drunkenness in London are at the annual rate of one to every 175 inhabitants; in Birmingham, one to 133; in Manchester, one to 71; and Liverpool, one to 50.

In the Dominion census volume Deseronto is classed as a village. The census commissioner must have visited the town on one of those days, like last Friday, when the dust was drifting in dense clouds along the streets.

Besides observing the law as to the close season, those who angle for brook trout are to remember under a penalty of \$10 to \$30 that every trout caught that is under five inches in length must be returned to the stream.

There are only 500 prisoners confined in the Kingston penitentiary at present, a lower number than for many years. All crooks released during the past six months have left for Chicago to share in the profits of the World's Fair.

Residents on Centre Thomas street were awfully scandalized the other evening when about dusk they saw a married man and father drive off with a young woman of alleged bad repute who had been walking up and down the street waiting for him to come along. Can such things be?

John Smith, of Paulding county, Ohio, writes to the National Stockman to say that a sure cure of the self-sucking habit in a cow is to put a bridle bit in her mouth with the head stall behind the horns. He claims it never fails, but does not say whether the cow can cut well in it or not.

The Liberal Conservatives of Hastings and adjoining counties are making extensive preparations for a grand banquet for Mr. H. Corby, M.P. A preliminary meeting was held on Saturday at which Mr. Newton, W. G. Egar, and W. J. Malley were present from Deseronto. Dr. Newton was appointed a member of the permanent and standing committee which will direct the demonstration.

Dr. Stephen Smith, of New York, kindly sends us a copy of the Fifth Annual Report of the International Medical Missionary Society, which has its headquarters in New York. The object of the society is to train men and women for medical missions and service in heathen lands or to labor in needy districts at home, etc. There were 34 students last year of whom 18 were from the United States 6 from Canada, and the remainder from England, Scotland, etc.

The eclipse of the sun, which occurred on April 10, was, according to the British Chronological and Astronomical association, a recurrence after a long cycle of eclipses, of one which took place in 800 B. C. On that ancient occasion there was a total eclipse. Nineveh because of the sun's face being darkened, and Shalmaneser II. took possession of the throne, the people believing the gods were displeased with his then occupation. The story is told on an obelisk in the British Museum.

ST. MARK'S CHURCH NOTES.

Next Sunday is Whit Sunday, one of the most important church festivals, held seven weeks after Easter, hence also called Pentecost, the 50th day from the Passover. It commemorates the descent of the Holy Ghost upon the infant church after the Ascension as recorded in Acts II. It was on Whit Sunday, June 9, D. 1549 that the Book of Common Prayer in English was first used in place of the Latin offices. The Wednesday, Friday and Saturday of Whit week are Ember days, when a prayer is offered daily for those who are to be admitted into Holy Orders.

The clergy have attended a meeting of the Bay of Quinte clerical union this week held in Belleville.

The men's Bible Class now assemble on Sunday at 2:30 p.m.

Communicants are specially invited by the Church of England to make their communion on Whit Sunday, it being one of the three times when all should remember their loving day.

CHURCH OF THE REDEEMER.

Rev. R. J. Craig conducted the services last Sunday.

There was a large attendance at the Sunday school. An interesting letter to the school from Mr. E. W. Rathbun, the superintendent, was read and listened to with great attention.

The subject of the lecture next Sunday evening will be "The Brothers Moses and Aaron."

The Y.P.S.C. Endeavor prayer meeting will be held at 8 o'clock Sunday evening, topics, "The Brothers Moses and Aaron." Dr. Smith will deliver a lecture on behalf of the Y.P.S.C. Endeavor on Friday evening, 26th inst., subject, "Some boys I knew."

HAD WORKED FOR THE FIRM.

He was old and stooped; hair iron gray; and his lips had the peculiar wobbly expression of age. He came into the office, hat in hand, stepped before the desk and waited to be recognized. "I saw the name on the window," he said, "and thought I would just step in. I 'wrought' for the firm years ago on the Trent, young man, and perhaps you would spare me a nickel." "What was your foreman's name?" was asked him.

"Oh, I forget, but I won't falsify, young man. I wrought for the firm on the Trent and at Mill Point." "Old man, your story may, or may not be true, but you hit the ball's eye plumb centre when you mention Mill Point," and from the vest pocket a nickel issued. "Have a seat." He sat down and so soon as he did so seemed a different being. His features were not hard as of a vagabond, his eye was bright and had an honest look. "How old are you?" "You can calculate, I suppose," he said. "I was born March, 1814. I am a half-breed Indian, and come from the Hudson Bay district." "Where do you live?" Answer not forthcoming. "I won't falsify, young fellow," Clerical staff mused for some minutes. "Say, old man, do you want to know how you can provide for yourself comfortably?" The old man nodded but seemed incredulous. "Well, you can do it; you have all the natural qualities. Tell fortunes. Get a room, announce your services as a great reader of the people's destiny. Terms one dollar per destiny; hours ten to three, as the balance must be had to commune with nature." The old man was unmoved for a few moments, then a smile showed itself. "His head went down to his knees and he rolled up the manuscript which he was holding, and said, 'Say, young fellow, you're a con.' He rose to go and said, 'I'll think of it and if I make it work let you be on the head and shoulders and give you 25 per cent. of the gross receipts. Meantime, he held up the nickel, 'this will wet the whistle.' "Your story's true, not a doubt of it," I said to myself. "Greater honesty cannot be found," and as he shuffled over to the nearest dispenser of anti Gold Cure I mused on the freedom of such a life and then went back to the desk to find my debit slip No. 138 was two cents out.

Ottawa, May 16 '93 C. B. D.

A HORRIBLE DEATH.

Clarence Moore, aged 22 years, son of Cass. Moore, of Grove street, Belleville, met an instantaneous and horrible death at Belleville, on Tuesday, by coming in contact with another boy named George W. Hayes, he was proceeding to school after dinner. They were crossing over the cattle guard of the G. T. R. just along the west line of Grier street. The guard is made of plank strips about four inches wide dressed down to an edge and standing upright about two and a half to three inches apart. Both of the boys got their feet fast between the strips. Young Hayes managed to pull his foot out, but Moore did not succeed in doing so. He tried hard to do so knowing it was near the time for the 12:45 express to pass. He endeavored to unlatch his boot, when the swift train came with great bravery endeavored to release his companion by helping to unlatch his boot, but all in vain. In a few seconds the engine struck the poor lad, cutting off his leg and crushing his head to a pulp and crushing the body to pieces. The engineer did his utmost to stop the train, but was unable to do so. The accident will, no doubt, move the school board and city authorities to take some action to prevent similar accidents in future.

REMARKABLE SURGICAL OPERATION.

Dr. Polakoff has just read to the Paris Academy of Medicine a paper on a case of the successful, grafting of a piece of dog's skull on a human one. The operator was a young practitioner, Dr. Richard, and the patient a woman of forty-five who had suffered from a tumour in the frontal bone. As it grew out of the bone, a part of the latter had to be removed to get rid of the tumour. The brain was thereby laid bare, and cerebral hernia ensued. Dr. Richard, seeing this, thought of removing a piece of bone from a dog's skull and setting it exactly to fit the void in the woman's forehead. He was careful in taking antiseptic precautions. The grafted piece has knit with the frontal bone into which it was inserted, and the patient is now quite well. Dr. Polakoff speaks of this operation as the most successful one of its kind ever performed and regards the success as due to the advances lately made in surgery and antiseptic science.

TOURISTS.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectively on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 75c. bottles by all leading druggists.

TYNDINAGA RESERVE.

From Our Own Correspondent.

The church jubilee and Reserve centennial
celebration which were announced to take
place in May or early in June have been postponed
to the first week in September owing to the
lateness of the season and busy time.

Brant Council R. T. of T. attended service
at the Parish Church on Sunday last; they
presented a very respectable appearance.

Rumors of a bye election for chief of fill
vacated by the removal of A. P.
Bran.

There will be a celebration of the Holy
Communion on the feast of Trinity next Sun-
day at Christ Church.

ALBERT.

From Our Own Correspondent.

Very little work has been done in the way
of farming so far this spring, owing to the con-
tinual wet weather. The rain on Tuesday and
Wednesday of last week was the heaviest of
the season.

Grass and fall grain are looking well where
visible.

The largest funeral in this neighborhood for
many years was that of Mrs. James McCul-
lough, which took place on Tuesday last.

Mrs. Peter Bell, who has been under the
doctor's care for the past two weeks, is gradu-
ally recovering.

Mr. Peter McTaggart has finished thirty-five
rods of a contract on the Boundary Road. This
work was badly needed.

It is with deep regret that we announce the
death of Mrs. James McCullough, a highly
respected resident of Tyndinaga. The sad event
took place on Friday night at her residence in
the fifth century. The deceased, who was only
twenty-nine years of age, was only sick a few
hours. Everything that medical skill could do
for her was done, but she continued to fade as
the last until she peacefully passed away in the
presence of a devoted husband and an affectionate
mother, who most kindly felt their great bereavement
in the death of a kind and loving wife and a
dutiful mother. The funeral took place on Sun-
day from the residence to Lonsdale, where the
remains were interred. Neighbors and friends
all unite in expressions of sympathy for the
bereaved husband and aged mother.

ROSLIN.

From Our Own Correspondent.

Mrs. T. Sullivan is gaining slowly.

Mrs. Stephen Fluke has been ill for some
time and the doctor has been making visits
twice each day.

Mr. N. Letta has purchased a few more
hog poles to fill up his yard.

Robert McCann recently lost a fine young
man and colt.

Mr. Howes, the gardener, attends the mar-
ket every market day.

The milk drawers have a great deal of fault
to find with the roads these days, on ac-
count of the bad weather.

Marcus Morton, of Hungerford, lived and
kept a bachelor's hall, but better kept than
thought he would adopt a new plan and now
he has a fair assistant.

NAPANEE ROAD.

From Our Own Correspondent.

The heavy rains of last week did much to
the lowland. It will be some time before the
farmers will be able to sow it. Quite a few
people have not got any seed yet.

Many of our people went down to Napanee
to hear Messrs. Hunter & Crossley last Sunday
night, but could hardly get inside of the
church, as it was filled to the door at twenty
minutes to seven. There is no use in going
late, as you will surely have to stand up.

Our people have not done much seeding
this week on account of it being too wet.

The school trustees of both sections have
been busy with the school grounds by setting
out shade trees. Now the youngsters should
see that the trees are not broken. The trustees
have done their part, the children should
surely do theirs.

You can travel the country over and you
cannot find a cemetery any better kept than
the one at Roslin. This is not credit to
Deseronto with all the good things, this has
been done by our road people who live there
now and who need these before.

DISTRICT ITEMS.

Pembroke is to have a cigar factory.

James Golden, grocer, Colborne, has
assigned.

A Rebelk lodge of Oldfellows will be
formed in Alton.

Rev. Father Ryan will be appointed
parish priest at Roslin.

was destroyed by fire on Sunday.

Rev. Mr. Elliott, of Billings Bridge, had
his house and its contents destroyed by
fire.

James Botting, formerly of Napanee,
has started a saw and door factory in
Oswego.

The lard and its contents belonging to
John Hastings, were destroyed
by fire on Sunday.

The nine-year-old son of Rev. T. M.
Campbell, of Lindsay, died on Monday
from lock-jaw caused by a horse trampling
on his hand.

Berlin, second daughter of James Sum-
mer, Carleton Place, mysteriously disap-
peared the other day and no trace of her
has been discovered.

SPRINGFIELD, Mo., April 21, '93.
Dr. Butler Medicine Co.

GENTLEMEN,—Having recently had my
suffering called to your attention. I feel as an
excellent remedy for building up the over-
worked nervous system, say I have
used enough of them to make a special test
of their efficacy, and can say truthfully that
they have done me good. They have
especially relieved me largely from nervous
headaches which have given me trouble
more or less for several years. Very re-
spectfully, W. C. HORTON, Manager
Water Works, Springfield, Mo.

The New York World says the plan of re-
funding the public debt by the sale of
gold bonds is assured. The mortgage is made
to the Farmers' Loan and Trust Company
and is to be paid in gold, and amply secured.

CHURCH OF THE REDEEMER.

Large congregation assembled at both
services in the Church of the Redeemer
last Sunday.

The Pastor will conduct the services
next Sunday at the usual hour. The topic
at the evening service will be "Before
Pharaoh."

The Y. P. S. C. Endeavour meeting will
be held next Sunday evening at 8 o'clock.
Topic "Bible Ideal of Character."

A lecture will be delivered this evening
(Friday) under the auspices of the Chris-
tian Endeavour Society, by Rev. Dr.
Smith, of Kingston.

Another letter from the superintendent
will be read at the Sunday school next
Sunday afternoon.

METHODIST CHURCH.

A large number of the congregation last
Sunday visited Napanee for the Crossley
and Hunter evangelistic meeting, notwith-
standing which the attendance here was
large at both services.

Next Sunday, services as usual by the
pastor. The evening service will be
special. In the interest of the Sunday
school, a song service in which the Sun-
day school in conjunction with the choir
will take prominent part.

PICTON RACES.

Queen's birthday races at Pictou were
largely attended. The steamer Hero, Ben
Ross and Varuna all running excursions
and carrying large parties. The day was
cold and with a strong wind blowing fast
and rain. At this time the track was in
good condition considering the heavy
rain of Tuesday. The 2.40 class had six
entries and it was thought would be hotly
contested but when one heat had been
trotted it was plain that Islander was too
fast for his company and made the three
heat processions, his coming under the
wire about ten lengths at the head of the
procession. The 2.30 class with four en-
tries was no one's race until the finish and
did not fill only two entries having been
made. Daisy S. took the first and second
heat very nicely but had to drop back to
fourth place in the third heat with Prince
Boy at the front. At this time Islander be-
gan in earnest and Frank L. was just get-
ting warm and went out and won the next
three heats and the race. The colt race
was won by Islander, who was very nicely
made. Mariette, the trotting stallion owned
by the Mariette Horse Co., of Pictou,
was shown and trotted a mile making the
last quarter in thirty seconds and one-half
seconds. The bicycle race was quite in-
teresting there being four entries. M.
Finnimore won the race with J. J. Caley
second and Louisa third. The follow-
ing is a summary of the races.

MARINE NOTES.

The steamers Corvican and Columbian,
of the R. & O. line begin running May 30.
The steamer Empire State is finished
and has commenced her trips among the
Thousand Islands.

The wreck of the S. S. Cynthia will be
blown up and removed from the bed of the
St. Lawrence below Montreal, where she
was sunk a year or two since.

A lighthouse will be erected at Nigger
Island.

The three Spanish caravels now on their
way round from New York to Chicago will
reach Montreal about the first of June.

Henry Wood, keeper of the lighthouse
at Point-Aux-Pins, left last night for
May 6th and nothing has been heard of
him since.

The ice cleared out of Port Arthur on
Monday. With the exception of 1888 this
is the latest opening of navigation at that
port.

long and carrying over 1000 tons of lumber,
is carrying lumber from the Georgian
Bay to Oswego.

The United States cruiser New York is
claimed to be the fastest and most power-
ful armoured cruiser afloat. In a trial she
made 21.09 knots an hour, thus winning
for the builder the largest premium ever
paid in any country.

The past week was the most disastrous
for Cleveland shipping interests that the
port has witnessed for a number of years.
Quite a large lot of lumber from
Toledo have been discharging at Garden
Island.

On the morning of June 6th, 1000 mem-
bers of Christian Endeavour Societies will

were inspected in Kingston by officers of
the United States and Canada.

Capt. McDougall, of the American Steel
Barge Co., yard Cleveland expects to
launch one vessel every four weeks for the
next five years. The present wharves
that is unable to carry the iron ore to be
moved from the Michigan mines to
Cleveland, etc.

A Connecticut harbor, fifteen miles east
of New York, has been deepened so that it
can receive the largest class of lake vessels.

STRONGLY ENDORSED.

The advertising of Hood's Sassafras
appeals to the common sense of think-
ing people, because it is true; and it is
always fully substantiated by endorsements
which it receives from the most reliable
sources without a moment's hesitation.
They tell the story—HOOD'S CURES.

Hood's Pills cure liver ills, jaundice, bil-
iousness, sick headache, constipation.

NEWS OF THE DAY.

The Duke of Montemart, France, is dead.
An anti-home rule meeting was held in
Montreal Tuesday.

Severe windstorms are reported in
Wisconsin and Minnesota.

It is said Mr. Oulmet will start a French-
Canadian paper in Ottawa.

The international congress of miners was
opened in Hamilton Monday.

Mr. Walter Bastedo, one of Hamilton's
oldest residents, is dead, aged 75.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osmond,
Lowell, Mass.

"Castoria is the best remedy for children of whom I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. J. Kinchloe,
Concord, Ar.

The Centaur Company, 77 Murray Street, New York City.

Castoria.

"Castoria is no well adapted to children than I recommend it as superior to any prescription known to me."

H. A. Aronson, M. D.,
111 So. Oxford St., Cincinnati, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their practice with Castoria, and although we only have among our medical supplies what is known as regular Castoria, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

I will suggest the method by which visitors can gain at once the personal impression of New York as a whole which the best map poorly conveys. They could have them view it on both sides of the Hudson, from the fronts, and 'the islands' with their institutions, from the ferry-boats east and west, and so obtain those 'bird's-eye' views which are the most valuable and which are rivaled only by the views from the Boston State House dome or the Eiffel tower in Paris. That from St. Paul's Cathedral, London, and from the fog and the smoke, affects of chiefly through the imagination, which it so powerfully excites. The wind and looking down from the top when the tower of the public building shall be finished. But rarely will I suggest such a metropolitan prospect as from any one of three elevations which I select.

First, then, get leave to ascend a noble clock-tower of the Prudence in the city, the site of the old city, where the city had its beginnings. Below you is the site of the old fort, in which the Dutch governors ruled "New Amsterdam" until the British took it over. Stuyvesant had to surrender to the Duke of York's forces—their first act being to rename the city after the Duke, and their master's name upon us. With a sight, everywhere, is perhaps the most continuously historic ground of the city, the site of the old Dutch Fort, the Bowling Green. Look off, and you never forget the scene about you, vast commercial region stretching westward. You can see the great stone into Wall street, where Washington took his presidential oath. In that direction you see the grandest building in the city, the City Hall, and St. Paul's, a little further, and the "Telegraphic Capitol," and the towers and domes of the lofty great churches. Everywhere, as you can see, is a mass of stores, warehouses,

financial buildings; in short, everything that is the lifeblood of the executive portion of the town. South the harbor, to Liberty and St. John's islands, to the forts, and through the Narrows to the sea. To right and left are the rivers, the Bridge, Brookline, Jersey City, and the hills. And here, if you remember, are the bridges and the tunnels again and again. What splendor of life and movement in the streets and on the water! Such a maritime panorama at all hours, with its boats, ships, schooners, steamships, and freighters, and the great ships at anchor, can be seen nowhere else on earth,—there being no other city, even huge, that is at once an open port and a metropolis.

you are that civic center which is shifted, within memory, from the Hall Park to Union Square, and again to Madison Square—the plaza which are tokens of our most brilliant life and pleasure. Here you will see the delightful Sevilian tower of the Hotel de Ville, and the 300-foot look out "over the roofs of the world" picturesquely broken up, spire-like, full of color. Here you view the "uptown" residential "uptown" region—and proud mansions, the costly hotels, the theaters, clubs, music-halls, the houses, the mansions, the mansions.

The Roman Catholic cathedral lifts its white spires over all. You see churches, homes, and play-houses, upper-class New York, as it now is.

Three miles more, and you may see

The Belvedere on the
Cathedral Park. Here one is enchan-
tured by that long pleasure ground
nature and art combine to make so
ed. It is too narrow, perhaps, but it
enables you to see how it is born
with new and stately mansions, a
look away to the Riverside and Mon-
side parks, and yonder to the "City
Heights," to be seen from the Colum-
bia Museum, the Columbia Col-
lege, and by that coming won-
der the Protestant cathedral. Between
the "new New York," a spacious
with fair streets, houses of modern
sign, a score of new churches, and
the evidences of a city that has
a city in itself—E. C. Stedman in
St. Nicholas.

Pure Water During the cholera epidemic of 1885, Madrid was drawing its water from the River Lozoya, rising in the granite of the Guadarrama Mountains flowing through an uninhabited country at least as far as the city of Segovia, where the water was pumped into the city by night and day by soldiers during the whole period of the Spanish epidemic. The consequence was that in Madrid people suffered but little. But the water supplied by the Lozoya was not free from iron and Douro, which was subject to contamination, was almost exterminated, losing by cholera nearly two thirds of its total population. George Higgin, who published in N

ful study of the Spanish epidemic, concluded: "In the case of cholera, age and sewerage are secondary factors, the primary one being the water supply. When cholera gets possession of the water supply of a city no law can restrain it. There is but one source, and that is the cutting off of water."—New York Herald.

Why Men Fail in Business.

Experience is the best, and often most expensive, teacher. There are many ways of obtaining it, but the most common is by making and paying for it the hard way. The man who learns by the other by observing the experience of others and profiting thereby. It is by this latter method that the connection it is interesting to observe that nearly twelve thousand failures occurred in the United States in 1914. Most of these were attributed to "insufficient capital," but a close analysis of the reasons given would show a lack of experience was the foundation of a vast majority of these misadventures in business. Of the 12,000 failures, 1,000 were attributed to fraud, nearly 2,000 to incompetency, and 3,800 to "lack of experience."—New York Mail.

A WISCONSIN SENSATION

Truth is stranger than fiction, and the proof lies in the following occurrence. Mr. R. Hodge, of King's Bridge, Wisconsin, was afflicted with heart trouble to such an extent that the least exertion caused him to palpitate, attended by cutting pains from the small of his back, causing him to feel so faint that she who loved him, she who had great weakness of the spine and who had been the sufferer, and a turning point in her life. She had been ailing for some time, and the change of life. He sleep was broken and restless owing to severe pain in the spine. She had read in the *Record of the Curative Properties of Dr. Butler's Golden Pills*, and sent for two boxes on the 10th. March. On the 7th April she writes: "Your pills are helping me feel stronger than when I commenced their use and I think for the use of your pills I will yet enjoy a reasonable degree of health, although I have been given up by some of the best physicians in the world. I am now using two boxes of your pills I am feeling better than I have for years, and my heart and stomach are in good shape. The change that has taken place in me. Please send me five dollars worth of your pills as soon as possible."

The above is only one of the many hundreds of testimonials received by Dr. Butler Med. Co. since their Golden Pills were placed before the public. We should the tortured sufferer delay giving Golden Pills a trial. Be not so conservative as to pin your faith on other remedies. Try them out to reach the seat of the disease. If all other have you for such ills as nervous prostration, rheumatism, flatulence of the heart, shortness of breath, asthma, nervous headache, neuralgia, paralysis, locomotor ataxia, and other ailments, it is a specific for rheumatism and free from any cathartic. No other remedy possesses such magical properties. It is a safe and reliable remedy for all ailments. It is a safe and reliable remedy for all ailments. It is a safe and reliable remedy for all ailments.

DID NOT KNOW TWAS LOADED.

J. Dougherty, a hotel keeper of Westwood, north of Belleville, and his sons, on the 19th, had a narrow escape from death. One of the boys picked up what appeared to be a piece of metal, which they took to McMillan's blacksmith shop, and placing it in a vice, commenced hammering it. The father finally took the hammer and administered a couple of blows, when an explosion occurred. One of the boys was terribly cut about the face and neck; the other boy received cuts on his hands, arms and face, and the father was also considerably injured. The "piece of metal" proved to be a nitro glycerine cartridge.

In an English town there is preached every year what is known as the "drunken sermon." It is a temperance sermon and was instituted many years ago by an old, eccentric man, who bequeathed to the town a public house or "pub," from that 40 shillings be deducted from the annual rent and given to a minister, who should preach a sermon against the evils of intemperance.—New York Times.

every evening and are favored with large
audiences.

A great many visitors to the Deseronto
High school grounds would like to see the
pump unhooked as a drink of water would be
very refreshing on hot days.

Mr. L. Hopkins, of the City grocery, has
been making several changes in his shop,
which will give him more room and greatly
tend to expedite business.

Mr. Robert Pearson has purchased from
Mr. Joseph Maracle the house on the south-
west corner of Brant and Thomas street,
and has moved his family thither.

The small boy and firecrackers are seen
everywhere these days. A big conflagration
will awaken the attention of the civic author-
ities to this dangerous amusement.

Some scandal-mongers who have been dis-
seminating cruel slanders concerning respect-
able people are likely to be brought to ac-
count at an early date; the strong arm
of the law will be invoked.

Many favorable comments have been
passed on the piece of poetry contributed to
the *TRIBUNE* last week by Master
Eddie Miller. The effort was indeed credit-
able to a lad of his tender years.

The heavy rain of Tuesday having rendered
the grounds unsuitable, the cricket match
announced for Wednesday last, between the
Deseronto and Royal Military College
eleven was indefinitely postponed.

The cyclone on Tuesday struck Burtch's
Great Pavilion Show at Fenelon Falls, but
the canvas stood it well and came out with-
out a scratch. Good and this favorite
company have made a very close partnership.

Mr. E. R. Langton, writing to THE
TRIBUNE, states that he likes St. Hyacinthe,
P.Q., extremely well. He is enjoying the
best of health. His wife and son, who have
both been seriously ill, are now recovering.
The people were very kind to them.

Mrs. Wm. Parnham's birth day is the
24th of May and she was born in the same
year as Her Majesty Queen Victoria. On
Wednesday she received a nice present from
her sons William and John of Georgian Bay
who never forget this annual act of filial
duty.

Dr. Jebb the optical specialist will be in
Deseronto at W. G. Egan's drug store June
2nd and 3rd only. Eyes examined free.
The only optician in Canada making the
grinding and fitting of complicated lenses for
the eyes a specialty. Inventor of the new
optometer for examining the eyes.

The New York Sun paid an eloquent
tribute to Admiral Hopkins and the British
squadron generally for the way in which they
had assisted to make the great naval
parade at that city a success. It admits
that without the presence of the British
squadron it would not have been such a brilliant
spectacle as it proved.

A special meeting of Victoria Lodge, No.
9, 'Freemasons', will be held on the even-
ing of Thursday, June 1st. The members
of this lodge have also made arrangements
for a grand moonlight excursion to be held
on the evening of June 14th, the last day of
the meeting of the Grand Lodge.

Messrs. Croxley and Hunter, the distin-
guished evangelists, accompanied by Mr. O.
Hinch and other gentlemen of Napanee,
drove up to Deseronto on Monday and visit-
ed the editor of the *TRIBUNE* and the
company. They were greatly pleased with
what they saw in this great hive of industry.

The weather during the past week has
generally been cool. There were passing
showers on Sunday. On Tuesday the mer-
cury ran up to 82 in the shade, the highest
temperature reached this season. After
dinner the wind veered to the northwest and
the cyclone followed after which the tem-
perature fell 35 degrees in about seven
hours. Yesterday a few passing showers.

Mrs. Abbott, Mrs. Tullock and Mrs. Kim-
merly were delegates from the Local Circu-
it, and Mrs. Adams and Mrs. Vennick
from Shannonville circuit to the Women's
Methodist Missionary Society of Belleville
district held at Belleville last week. For
the year ending Oct. 1, 1892, the auxiliaries
of the district raised \$680.37, and the mis-
sion bands \$205.74. Of this amount Lons-
dale contributed \$12.20, and Shannonville
\$82.74.

The recent rains have left the roads in a
very bad condition. They will probably be
rough and lumpy all summer. Every
one who drives over the roads between Des-
eronto and Napanee pronounces this
condition execrable, a disgrace to the civiliza-
tion of the nineteenth century. The Lon-
gore and Richmond authorities should take
some action towards its improvement.

Professor Barnard, of the Lick observa-
tory, expects that this year will be
required to complete the series of photo-
graphs he is now making of the Milky
Way. The work is proceeding rapidly at
the observatory and the astronomer is con-
fident that when his labors are finished the
results will revolutionize the old con-
ception of the Milky Way. His work will
reveal the presence of at least 500,000,000
suns.

We have on our desk the initial number
of *The Canadian Engineer*, a bright monthly
journal of 28 pages and cover, devoted to
the mechanical, mining and other branches
of the engineering trades. It is thoroughly
Canadian in tone, every article has a prac-
tical purpose, and it gives an immense
amount of valuable information of interest to
trades concerned. Its design and typog-
raphical appearance are not excelled by
any trade paper yet issued in this country.
Published by *The Canadian Engineer*, Co.,

Building, Montreal, at \$1 per year.

Teachers' Convention.

The teachers of the Public school are in
Belleville this week attending the annual
teachers' convention for South Hastings
which commenced yesterday.

Casualties.

Norman Palmateer had his thumb severely
crushed while putting up telephone poles
at Northport. John Bergeron fell from the
top of a car in the yards and struck his side
against the tie fracturing several ribs. Dr.
Vandervoort attended both men.

To-Night.

This (Friday) evening in the lecture room
of the Presbyterian church, Rev. Dr. Smith,
of Kingston, will deliver a lecture, the sub-
ject being "Some Boys I Knew". The
lecture is replete with humor and informa-
tion and will be a rich intellectual
treat. Lecture will commence at 8 sharp.
Admission only 10 cents.

Excursion to Napanee.

The steamer Ella Ross will convey an
excursion from Belleville, Deseronto, etc.,
this (Friday) evening, thus giving an oppor-
tunity of attending the Croxley & Hunter
concerts in the Opera House. Steamer leaves
Deseronto at 5:30 p.m., returning after the
meeting. Return fare, 25 cents.

Belleville District.

At the meeting of the Belleville District
of the Methodist Church held last week, the
report showed marked progress all along the
line, the membership being 98 more than
the preceding year while the financial state-
ment was very satisfactory. The Shannon-
ville district raised for all purposes \$1,137.-
70 Lonsdale circuit \$961.70. R. L. Larue,
Shannonville, was elected a lay delegate to
Conference.

Boulevard.

It is a pity that the boulevard movement
would not become more general. It would
greatly improve the appearance of the town
and be a great benefit to many of the streets.
It is not very expensive work. We feel
confident that the town council would pro-
vide the plan, and to any citizen
who will boulevard the front of his pre-
mises, as so much less street would require
to be graded.

Car Works.

The staff in the car-works are busy at four
new passenger coaches and other orders
recently received. The new machinery
lately introduced is giving the utmost satis-
faction and work can now be rushed to com-
pletion in short order. The equipment of
these works is all modern and of the very
best, and among other machines
which attract the attention of visitors is a
mortising machine which bores a square
hole.

Railway Subsidy.

Among the railway subsidy resolutions
submitted to the legislative assembly by the
government yesterday was one making a
grant to the Kingston, Napanee and Western
Railway company, for such extensions or
branches of its projected and authorized line
of railway north of the village of Tweed as
will not exceed thirty miles in all, and will
enable the said company to connect its
existing line of railway with the iron ore
deposits lying northward of said village of
Tweed, a cash subsidy of \$3,000 per mile.

Deseronto Bicycle Club.

The Deseronto Bicycle Club was organized
last week with the following officers: Rev.
R. J. Craig, honorary president; Wm. Stod-
dard, president; Edward Cole, captain; Ed-
ward Lowery, secretary; treasurer, Hubert
Nasmith, bugler. The club starts out with
a good membership and intend to give a
good account of themselves during the com-
ing summer in the way of breaking records.
A natty uniform has been selected to
distinguish the corps. A few of the wheelmen
rode over to Picton on the Queen's birthday.

Killed by Lightning.

During the cyclone on Tuesday afternoon,
Mr. Frank Brooks, of Napanee, who was in
the employ of Sir Richard Cartwright, was
instantly killed by lightning near Violet.
He was driving along the road and had just
held up his horse to give a neighbor a ride,
when the electric bolt killed both driver
and horse. Mr. Brooks was about thirty-
five years of age, and leaves a widow and
two children, a boy of 4 years and a baby.
There were heartrending scenes in the fam-
ily when the corpse was brought to this
house. Mr. Brooks having left home in the
best of health only a few hours previously.

Napanee District.

The Napanee District meeting was held
in the Eastern Methodist church on Monday
and Tuesday last. There was a full attend-
ance. The finances and statistics were very
satisfactory, a net increase of some 110 mem-
bers. A resolution expressing appreciation
of the services and courtesy of the
chairman was passed, and also an expressive
thanks to Rev. J. J. Rice as financial
agent. The district secretary, Mr. J. A. Jewell
was also present. The district meeting
would be deprived of his services after Con-
ference, and wishing him prosperity in his
new field of labor. Rev. J. A. Jewell was
also present. The district meeting was
held at the Napanee Conference Sunday School Committee.

Cyclone.

A cyclone prevailed all over Ontario and
part of the United States and Quebec on
Tuesday. It struck Deseronto between 2
and 3 p.m. The sky presented a very
threatening aspect in the West and people
fully expected a great electric storm. The
wind suddenly came with great force driv-
ing before it a cloud of dust which filled
the air and rendered everything invisible at
a few yards distance. The rain came down
in torrents and there were some flashes of
lightning. In a few minutes the wind had
spoke its force. About Deseronto no dam-
age worth recording was done, but else-
where it was very destructive. A great
many barns in the district were blown
down or unroofed. In Belleville the opera
house and post office were struck by light-
ning and damaged and trees were blown
down. At Cleveland, Ottawa and Tilson-
burgh there was loss of life by falling
buildings and scaffolding.

Harris Blank and Isaac Rosenzweig, both
natives of Russia, and each 27 years of age,
and a son, Isaac, 18 years of age, were
hanged at the gallows at Montreal, on
March the 18th, 1892, were hanged at Monk-
hammock, Pa.
